2.9 Liquidated Damages for Delay.

- 2.9.A For Delay in Substantial Completion. The parties acknowledge that the Contractor's failure to achieve Substantial Completion of the Work within the Contract Time provided by the Contract Documents will cause the Owner to incur significant actual damages of types and in amounts which are impossible or extremely difficult to calculate and ascertain with certainty and accuracy. Accordingly, in lieu of actual damages for delay in Substantial Completion that is not caused solely by the Owner (hereinafter "Contractor Delay"), the Contractor agrees that liquidated damages will be assessed and recovered by the Owner against Contractor in the event of Contractor Delay and without the Owner being required to present any evidence of the amount or character of actual damages sustained by reason thereof. To the best of their ability and based on information available to them as of the time of entering into this Contract, Contractor and Owner have estimated that the fairest and best approximation of actual damages that will be incurred for each day of Contractor Delay beyond the Contract Time is [[Substantial Completion Delay Per Day Amount in Text Single Prime]] (\$[[Substantial Completion Delay Per Day Amount Single Prime]]) per calendar day. Therefore, in lieu of actual damages, Contractor shall pay Owner liquidated damages in the aforesaid amount per day for each calendar day of Contractor Delay. Such liquidated damages are intended to represent estimated actual damages and are not intended as a penalty, and Contractor shall pay them to

Owner without limiting Owner's right to terminate this agreement for default as provided elsewhere herein.

2.9.B [[Liquidated Damages Explanation Single Prime]]

2.9.C When Owner reasonably believes that Substantial Completion will be inexcusably delayed, Owner shall be entitled, but not required, to withhold from any amounts otherwise due Contractor an amount then believed by Owner to be adequate to recover liquidated damages applicable to such delays. If and when Contractor overcomes Contractor Delay for which Owner has withheld payment and Owner reasonably believes that there has been or will be no other event of Contractor Delay for which Owner would be entitled to withhold from amounts otherwise due Contractor, Owner shall promptly release to Contractor those funds withheld, in anticipation of liquidated damages

All cure activity shall address the deficiencies identified by the university and shall require clear documentation, including that of good faith efforts, to address those deficiencies. Any increase in cost to a contract for the addition of a subcontractor to cure a bid's deficiency shall not affect the bid price. The university shall make the determination whether the cure is adequate.

3 BUSINESS ENTERPRISE PROGRAM (BEP) AND VETERAN BUSINESS PROGRAM (VBP) PARTICIPATION.

<Alternate Clause: CFED – 30 BEP and VBP Participation Single Prime Alt>

<Project Dollar Amount less than \$250K option: CFED – 30BEP and VBP Participation -<\$250K>

- 3.1 Bidders are encouraged to use BEP/VBP certified vendors in performing the work; however no good faith effort documentation is required. The BEP/VBP certified vendors to be used on this project shall be listed on Attachment B – Business Enterprise Program (BEP) and Veteran Business Program (VBP) Utilization Plan of bid form document 00 40 00.

<End Project Dollar Amount less than \$250K option>

<Project Dollar Amount \$250K or more option: CFED – 30BEP and VBP Participation - >\$250K>

- 3.1 Each Bidder shall name the BEP/VBP certified vendors it intends to use to meet the specified diversity goals set for this project on Attachment B – Business Enterprise Program (BEP) and Veteran Business Program (VBP) Utilization Plan of bid form document 00 40 00. When a vendor has multiple certifications (i.e. MBE, WBE, PBE, or VBE.), the business's certification may only be counted towards one of the goals. Utilization of WMBE certified vendors must designate full participation as either a MBE or WBE when split goals are identified for purposes of meeting diversity goals. WMBE value may not be split between MBE and WBE. Vendors that are both BEP and VBP certified may only be counted towards either the BEP or VBP goal, but not both. The goals for this project are as follows ("N/A" in "Combined Goal" column means split goals are in effect and "N/A" in "Split Goals" column means combined goals are in effect for each specific division of work):
- 3.2 Certification Requirement. Only those vendors who are certified by the Illinois Commission on Equity and Inclusion as of the last day of the bid opening Cure Period will be considered in determining whether the vendor is compliant with diversity requirements.
- 3.3 BEP/VBP Certified Bidder. The bidder must disclose if it is a BEP/VBP certified vendor on Attachment B - Business Enterprise Program (BEP) and Veteran Business Program (VBP) Utilization Plan of bid form 00 40 00. Owner encourages certified BEP/VBP prime Bidders to use BEP/VBP certified subcontractors/suppliers.
- 3.4 Acceptable Certifications. Owner will only accept firms certified by the Illinois Commission on Equity and Inclusion (CEI) as one of the following certified business enterprises:
- Minority Business Enterprise (MBE)
 - Women Business Enterprise (WBE)
 - Women/Minority Business Enterprise (WMBE)
 - Business Owned By A Person With A Disability (PBE)
 - Qualified service-disabled veteran-owned small business (SDVOSB)
 - Qualified veteran-owned small business (VOSB)
- A current and valid print version of the vendor's CEI Business Enterprise Program (BEP) / Veteran Business Program (VBP) Vendor Directory results is printed proof of the CEI certification and should be provided with bid.
- 3.5 The IL CEI BEP/VBP Vendor Directories can be found at <https://supplierdiversitymanagementportal.illinois.gov/VendorDirectory.aspx>
- 3.6 Commercially Useful Function. The University of Illinois values the utilization of BEP/VBP certified vendors in capital construction. All such enterprises must perform a commercially useful function. Enterprises which might be considered "pass-throughs" or "fronts" are not permitted. Failure to comply with this requirement or false representations may result in termination of contracts related to University capital construction projects and result in criminal and civil penalties. Only expenditures to businesses owned by minorities, women, and persons with disabilities that perform a commercially useful function may be counted toward the goals set forth by the BEP Act. A firm is considered to perform a commercially useful function when it is responsible for execution of a distinct element of the work of a contract and carries out its responsibilities by actually performing, managing, and

supervising the work involved. The BEP/VBP certified vendor must also be responsible, with respect to materials or supplies used on the contract, for negotiating price, determining quality and quantity, ordering the materials or supplies, and installing the materials (where applicable) and paying for the materials or supplies. To determine whether a firm is performing a commercially useful function, the University shall evaluate the amount of work subcontracted, whether the amount the firm is to be paid under the contract is commensurate with the work it actually performs, the credit claimed for its performance of the work, industry practices, and other relevant factors. A BEP/VBP certified vendor does not perform a commercially useful function if its role is limited to that of an extra participant in a transaction or contract through which funds are passed through to obtain BEP/VBP certified vendor participation. In determining whether a BEP/VBP certified vendor is such an extra participant, the University shall examine industry practices and similar transactions, particularly those in which BEP/VBP certified vendors actually participate in a meaningful way.

- 3.7 Bid Form. Each Bidder must indicate on Attachment B - Business Enterprise Program (BEP) and Veteran Business Program (VBP) Utilization Plan of the bid form 00 40 00, it has either (1) met the entire contract goal or (2) requests a full or partial waiver of the contract goal. Each Bidder shall name the BEP/VBP certified vendors it intends to use to meet the specified goals including addresses, phone numbers, e-mail address, scope of work or supplies to be provided and proposed subcontract values to date. Written evidence of good faith efforts to achieve the goals are required whenever the bidder is requesting a waiver and can be cured within ten (10) calendar days after Owner notifies bidder of the deficiency, in accordance with Diversity Goal Cure Period identified above. Good faith effort documentation is not required when diversity goals have been met.
- 3.8 Diversity Goal Cure Period. If the Bidder fails to meet the diversity goal(s) and/or requests a waiver at the time of bid submittal and provides a completed utilization plan (Attachment B – Business Enterprise Program (BEP) and Veteran Business Program (VBP) Utilization Plan of bid form 00 40 00) the university may grant a cure period of ten (10) calendar days, after Owner notifies bidder of the deficiency, to meet the goal. By the end of the Cure Period, Bidder shall submit an updated utilization plan and updated documentation of their good faith efforts to achieve the BEP/VBP participation goals, if the goals are not met. Failure to submit such documentation or to use good faith efforts, shall result in rejection of the bid. Good faith effort documentation is not required when diversity goals have been met.
- 3.9 Good Faith Efforts. Bidders are required to use any and all good faith efforts to meet the diversity goal prior to the time of bid submittal. Bid submittals that include a waiver request must include (1) a completed Good Faith Effort Transparency Report and (2) submission of good faith efforts documentation, including Bidder's pricing for each diverse subcontractor identified, at the time of bid submittal. These efforts should demonstrate that every attempt to negotiate and secure diverse business participation was made prior to the bid. Bids with zero or low levels of participation at the time of bid may be determined to have not demonstrated good faith efforts and may be found non-responsive. Bidders that fall short of meeting the goal and demonstrate acceptable good faith efforts at the time of bid submittal will be considered with the additional efforts achieved within the 10 day cure period.
- 3.10 Good faith effort documentation supporting a request for a full or partial waiver of the BEP/VBP goal must be submitted at the time of bid submission and/or within the 10-day cure period. The minimum expected documentation includes, but is not limited to:
- 3.10.A All information indicating why the specified goal cannot be met.
- 3.10.B A list of all BEP/VBP certified vendors contacted and the dates they were contacted, including documentation from those firms.

- 3.10.C Copies of all bid solicitation letters to BEP/VBP certified firms. Letters shall contain, as a minimum:
- 3.10.C.1 Project title and location;
 - 3.10.C.2 Classification of work items for which quotations are requested;
 - 3.10.C.3 Date, time, and place quotations are due;
 - 3.10.C.4 Returnable acknowledgment of the solicitation.
- 3.10.D Evidence, such as a log, of telephone, e-mail, fax, etc. contact including time and date of contact, telephone number or email address, and name of the person contacted, and a description of the result. Bidders must keep and submit copies of all emails sent and received from prospective BEP/VBP vendors and include a copy of the commodity list or scope of work solicited from prospective BEP/VBP vendors to perform.
- 3.10.E All other evidence of good faith efforts made by the bidder to secure eligible BEP/VBP certified vendors to meet the specified goal. Evidence may include documentation, at a minimum, that states the following:
- 3.10.E.1 Contacting the Business Enterprise Bureau at least 15 days prior to need and requesting referrals from the vendors list and from any other list maintained by the Bureau;
 - 3.10.E.2 Advertising in the Official State Newspaper or a local newspaper as time permits;
 - 3.10.E.3 Contacting appropriate organizations such as unions, contractor associations, and diversity oriented organizations.
 - 3.10.E.4 Utilize the website: <https://supplierdiversitymanagementportal.illinois.gov/VendorDirectory.aspx> to identify BEP certified vendors within the respective NIGP code(s) on the solicitation documents. At a minimum, email all listed vendors with project specifications sufficient to build a quote, then solicit quotes from all vendors who express an interest with follow-up emails and telephone calls. Documentation of these efforts must be submitted as evidence, including copies of all e-mails sent.
 - 3.10.E.5 Solicit through all reasonable and available means (e.g., attendance at a vendor conference, advertising, written notices) the interest of BEP/VBP certified vendors that have the capability to perform the work of the contract. Vendor must solicit this interest with sufficient advance time to allow the BEP/VBP certified vendors to respond to the solicitation. Vendor must determine with certainty if the BEP/VBP certified vendors are interested by taking appropriate steps to follow up initial solicitations and encourage them to submit a bid or proposal, providing them with adequate information about the plans, specifications, and requirements of the contract in a timely manner to assist them in responding promptly to the solicitation.
 - 3.10.E.6 Select portions of the work to be performed by BEP/VBP certified vendors in order to increase the likelihood that the goal will be achieved. This includes, where appropriate, unbundling contract work items into economically feasible units to facilitate BEP/VBP certified vendor participation, even when Bidder might otherwise prefer to perform these work items with its own forces.

- 3.10.E.7 Make a portion of the work available to BEP/VBP certified vendors by selecting those portions of the work or needed material based on the availability of BEP/VBP certified vendors.
- 3.10.E.8 Negotiate in good faith with interested BEP/VBP certified vendors. Evidence of such negotiation must include the contacted names, mailing addresses, email addresses, and telephone numbers of BEP/VBP certified vendors that were considered; a description of the information provided regarding the plans and specifications for the work selected for subcontracting; and evidence as to why additional agreements could not be reached for BEP/VBP certified vendors to perform the work. A Bidder using good business judgment may consider many factors in negotiating with BEP/VBP certified vendors and may take a firm's price and capabilities into consideration. The fact that there may be some additional costs involved in finding and using BEP/VBP certified vendors may not, in itself, be a sufficient reason for a Bidder's failure to meet the goal, as long as such costs are reasonable. Bidders are not required to accept higher quotes from BEP/VBP certified vendors if the price difference is excessive or unreasonable.
- 3.10.E.9 Thoroughly investigate the capabilities of BEP/VBP certified vendors and not reject them as unqualified without documented reasons. The BEP/VBP certified vendor's memberships in specific groups, organizations, or associations and political/ social affiliations are not legitimate causes for the rejection or non-solicitation of bids and proposals in bidder's efforts to meet the goal.
- 3.10.E.10 Where subcontractor capacity and/or access to capital prevents participation, make efforts to assist in obtaining available resources such as State of Illinois lending programs and the prime's lending, capital and bonding networks.
- 3.10.E.11 Make efforts to assist interested BEP/VBP certified vendors in obtaining necessary equipment, supplies, materials, or related assistance or services.
- 3.10.E.12 Utilized resources available to identify available certified vendors, including but not limited to Office of Procurement Diversity staff, BEP/VBP assistance staff; local, state and federal diverse business assistance offices; and other organizations that provide assistance in the recruitment and placement of diverse businesses.
- 3.10.E.13 Follow best practices when conducting a Good Faith Effort. Best practices can be found on the BEP/VBP website at <https://cei.illinois.gov/purchasing-entity-resources/compliance.html>.
- 3.10.F The University of Illinois will consider all other evidence of good faith efforts made by the bidder to secure eligible BEP/VBP certified firms to meet the specified goal, prior to the bid due date and during the 10- day cure period if applicable.
- 3.10.G The University of Illinois will take into account the performance of other bidders in satisfying the contract specified BEP/VBP participation goal(s). For example, when the apparent successful bidder fails to commit to the contract goal, but other bidders commit to the goal, the University of Illinois will raise the question of whether, with additional efforts, the apparent successful bidder could have committed to the goal.
- 3.10.H An updated Attachment B.

3.10.1 Other relevant information in support of the change/waiver request.

4 REQUEST FOR CHANGE OF SUBCONTRACTOR OR SUPPLIER.

- 4.1 Only upon receipt of Notification of Award (NOA) or Notification of Intent to Award (NOIA) the determined responsive and responsible Bidder may make a request for change of a BEP/VBP certified subcontractor or supplier which it has previously listed on Attachment B - Business Enterprise Program(BEP) and Veteran Business Program (VBP) Utilization Plan of bid form 00 40 00. All requests shall be in writing on the Contractor's letterhead and submitted with documented evidence of cause to Owner's Office of Procurement Diversity. Owner will review each request and may, at its sole discretion, authorize the change.
- 4.2 After receipt of NOA and/or NOIA letter, but prior to Contract Execution. The Bidder may request approval of a BEP/VBP certified subcontractor or supplier other than one listed on Attachment B – Business Enterprise Program (BEP) and Veteran Business Program (VBP) Utilization Plan of bid form 00 40 00 provided sufficient information is supplied by the Contractor as deemed appropriate by Office of Procurement Diversity. Owner may require supporting documentation from the BEP/VBP certified subcontractor or supplier.
- 4.3 After Contract Execution. The Business Enterprise Program and Veteran Business Program Utilization Plan may not be amended after contract execution without University prior written approval. A vendor may not make modifications to its contractual BEP/VBP certified vendor commitments or substitute BEP/VBP certified vendors without the prior written University approval. Unauthorized modifications or substitutions, including performing the work designated for a BEP/VBP certified vendor with Bidder's own forces, shall be a violation of the Utilization Plan and therefore a breach of the contract, cause to terminate the contract, and cause to seek other contract remedies or sanctions. For University approval of modifications or substitutions, the facts supporting the modifications or substitutions must not have been known nor reasonably should have been known by the parties prior to entering into the contract and/or subcontract. Bidder must negotiate with BEP/VBP certified vendors to resolve problems. Where there has been a mistake or disagreement about the scope of work and/or goods/equipment required by the contract, the BEP/VBP certified vendor can be substituted, but only where agreement cannot be reached for a reasonable price or schedule for the correct scope of work, goods and/or equipment. Any subsequent change must be submitted to the University in writing, and approved by the University. Substitutions of a BEP/VBP certified vendor may be permitted under the following circumstances: Unavailability after receipt of reasonable notice to proceed; Failure of performance; Financial incapacity; Refusal by the BEP/VBP certified vendor to honor the bid or proposal price or scope; Material mistake of fact or law about the elements of the scope of work of a contract where a reasonable price cannot be agreed upon; Failure of the BEP/VBP certified vendor to meet insurance, licensing or bonding requirements; The BEP/VBP certified vendor's withdrawal of its bid or offer; and/or failure of the BEP/VBP certified vendor to maintain certification. If it becomes necessary to substitute a BEP/VBP certified vendor, the prime Bidder must notify the University in writing, of the request to substitute a BEP/VBP certified vendor or otherwise modify the Utilization Plan. The request must state specific reasons for the substitution or modification. The University will approve or deny a request for substitution or other change in the Utilization Plan within five business days of receipt of the request. Where Bidder has established the basis for the substitution to the satisfaction of the University, it must make Good Faith Efforts to meet the contract goal by substituting one or more BEP/VBP certified vendors. Documentation of a replacement BEP/VBP certified vendor, or of Good Faith Efforts to replace the BEP/VBP certified vendor, must meet the requirements of the initial Utilization Plan. If the goal cannot be reached and Good Faith Efforts have been made, Bidder may substitute with a non-BEP/VBP certified vendor. Prime Bidders are encouraged to utilize BEP/VBP certified firms. If a Bidder plans to hire a subcontractor for any scope of

work that was not previously disclosed in the Utilization Plan and this increases BEP/VBP participation, Bidder must obtain the approval of the University to modify the Utilization Plan and must make Good Faith Efforts to ensure that BEP/VBP certified vendors have a fair opportunity to submit a bid or offer on the new scope of work. If the Prime Bidder wishes to substitute its BEP/VBP certified subcontractor, a BEP/VBP certified vendor Utilization Plan must be executed and submitted to the University within five (5) business days of Bidder's receipt of the University approval for the substitution.

1.4 Business Enterprise for Minorities, Women, and Persons with Disabilities Act. (BEP Act 30 ILCS 575) and Veterans Business Program (VBP) in accordance with the Illinois Procurement Code 30 ILCS 500/45-57.

1.4.A This project has diversity goals for participation by BEP certified owned businesses as bidders, subcontractors or suppliers in accordance with the Business Enterprise for Minorities, Women, and Persons with Disabilities Act as defined in Document 00 20 00.

NOTE: These diversity goals are separate and distinct from workforce projections (Attachment A of Document 00 40 00).

Each Bidder shall name the BEP and VBP certified firm(s) it intends to use to meet the specified goals set for this project on Attachment B – Business Enterprise Program (BEP) and Veteran Business Program (VBP) Utilization Plan of bid form document 00 40 00. Utilization of WMBE certified vendors must designate full participation as either a MBE or WBE when split goals are identified for purposes of meeting diversity goals. WMBE value may not be split between MBE and WBE. Vendors that are both BEP and VBP certified may only be counted towards either the BEP or VBP goal, but not both. The goals for this project are as follows (“N/A” in “Combined Goal” column means split goals are in effect and “N/A” in “Split Goals” column means combined goals are in effect for each specific division of work):

1.5 Use of Illinois Labor. 1). The Employment of Illinois Workers on Public Works Act mandates that during a period of excessive unemployment at least 90% of the total labor hours on State construction projects must be performed by persons who have resided in Illinois for at least thirty (30) days and intend to become or remain Illinois residents. (30 ILCS 570/3). ‘A period of excessive unemployment’ means any month immediately following two (2) consecutive calendar months during which the level of unemployment in the State of Illinois has exceeded 5% as measured by the United States Bureau of Labor Statistics in its monthly publication of employment and unemployment figures. (30 ILCS 570/1).

2). Contractors are required to incorporate the above provisions into all subcontracts for subcontractors who will have workers at the project site.

3). To verify that this requirement is being met, Contractors must submit certified payroll forms to the Illinois Department of Labor (IDOL) for themselves and their subcontractors each month for the duration of the contract/subcontract.

- A. The certified payroll form(s) must include the name and address of each worker on the project site during the time period covered by the form.
- B. For subcontractors, the Contractor will include the beginning and ending dates of the subcontract on the certified payroll form.
- C. If certified payroll forms are not submitted timely, payment may be reduced or withheld until certified payroll submittals are brought up to date.
- D. A transcript from IDOL is generated upon submission of certified payroll records to IDOL. Contractors are required to submit IDOL certified payroll transcripts for themselves and their subcontractors to CDB on a monthly basis.

7 CONTRACT TIME

7.1 Starting Date. The Bidder hereby agrees that, if awarded a contract for the Work bid upon herein, the Bidder shall commence the Work on the date specified in a written Notice to Proceed from the Owner.

7.2 Completion Date. Time is of the essence in this contract. The Bidder agrees to achieve Substantial Completion of the Work bid upon as expeditiously as the Work will permit, in such a manner as to cause no delay to any of the other contractors employed in the Work or to the completion of the Work as a whole and, subject to adjustments as provided by the Contract Documents, no later than [[Number of days to Substantial Completion from Notice to Proceed Single Prime]] calendar days from the date specified in the Notice to Proceed (the "Substantial Completion Date").

<Alternate Clause: CFED – 40 Liquidated Damages Single Prime Alt> Yes option only.

<Yes option: CFED – 40 Liquidated Damages Single Prime – Yes>

7.3 Liquidated Damages for Delay in Substantial Completion. Contractor's failure to achieve Substantial Completion of the Work by the Completion Date will cause the Owner to incur significant actual damages of types and in amounts which are impossible or extremely difficult to calculate and ascertain with certainty and accuracy. Accordingly, in lieu of actual damages for delay in Substantial Completion, that is not caused solely by the Owner (hereinafter "Contractor Delay"), Contractor agrees that liquidated damages shall be assessed and recovered by the Owner against Contractor in the event of Contractor Delay and without the Owner being required to present any evidence of the amount or character of actual damages sustained by reason thereof. Based on information available at this time, the fairest and best approximation of actual damages that will be incurred for each day of delay in achieving Substantial Completion beyond the Completion Date is **[[Substantial Completion Delay Per Day Amount in Text Single Prime]]** (**\$[[Substantial Completion Delay Per Day Amount Single Prime]]**) per calendar day. Therefore, in lieu of actual damages, Contractor shall pay Owner liquidated damages in the aforesaid amount per day for each calendar day of Contractor Delay. Such liquidated damages are intended to represent estimated actual damages and are not intended as a penalty, and Contractor shall pay them to Owner without limiting Owner's right to terminate the agreement for default as provided elsewhere in the Contract Documents.

UTILIZATION PLAN

Vendor hereby affirms (select one of the options below):

☐ Vendor is a BEP certified firm and plans to fully meet the BEP goal through self-performance or Vendor is a VBP certified firm and plans to fully meet the VBP goal through self-performance. (*Self-performing firms must complete Attachment B in its entirety and include itself and any other diverse businesses to be utilized on this project*)

☐ Vendor has identified BEP and VBP certified subcontractor(s) to fully meet the established BEP and VBP goals. Only BEP certified subcontractors may be used to meet the BEP goal and only VBP certified subcontractors may be used to meet the VBP goal if Vendor intends to meet the established goal in whole or in part through the use of subcontractors. All tier BEP and VBP Subcontractors are allowed to be included in meeting BEP/VBP goals. Subcontractors that are both BEP and VBP certified may only be counted towards either the BEP or VBP goal, but not both.

☐ Vendor cannot fully meet the goal(s) but has made Good Faith Efforts towards meeting the goal, and hereby requests a waiver or reduction of the goal. (*If requesting a waiver, return Attachment B, which includes the Good Faith Effort Transparency Report and all documentation of Good Faith Efforts. Utilization plans are due at the time of bid submission. Failure to complete and include a utilization plan shall render the bid non-responsive. Documentation demonstrating good faith efforts shall be finalized within the 10-day cure period.*)

Note: Bidders should check their calculations for meeting both the BEP and VBP goals for accuracy. Bidder may not round up percentages to meet goal.

Bidders must use good faith efforts to meet both BEP and VBP goals. If a vendor does not meet either of the goals, then bidder shall request a waiver and provide documentation of good faith efforts.

GOOD FAITH EFFORT TRANSPARENCY REPORT

By signing the Bid Form, I affirm under penalty of perjury the information provided in the Petition for Full or Partial Waiver/Good Faith Effort Transparency Report is truthful, accurate, and complete, to the best of my knowledge and capacity. I agree any finding of false, fraudulent, and/or otherwise misleading information will automatically disqualify the request for a waiver and the Office of Procurement Diversity reserves the right to pursue additional actions and/or remedies against the requesting Bidder.

Bidder did not meet the goals and is requesting the following (check those that apply):

- ☐ Full BEP Waiver; OR
- ☐ Partial BEP Waiver, current team BEP = _____%
- ☐ Full VBP Waiver; OR
- ☐ Partial VBP Waiver, current team VBP = _____%

Full Waiver is requested when the bidder has not met the diversity participation goal(s) and has not indicated any diversity participation.

Partial Waiver is requested when the bidder has not met the diversity participation goal(s) but has indicated some diversity participation.

Below is a checklist of actions that will be used to evaluate a Vendor's Demonstration of Good Faith Efforts and Request for Waiver. Please check the actions which you have completed. If any of the following actions are not completed, please attach a detailed written explanation indicating why such action was not completed. If any other efforts were made to obtain BEP/VBP certified vendor participation, in addition to the items listed below, attach a detailed description of such efforts.

- ☐ Contacting the Business Enterprise Bureau at least 15 days prior to need and requesting referrals from the vendors list and from any other list maintained by the Bureau;
- ☐ Advertising in the Official State Newspaper or a local newspaper as time permits;
- ☐ Contacting appropriate organizations such as unions, contractor associations, and diversity-oriented organizations.
- ☐ Utilize the website: <https://supplierdiversitymanagementportal.illinois.gov/VendorDirectory.aspx> to identify BEP/VBP certified vendors within the respective NIGP Class or Class Item code(s) on the solicitation documents. At a minimum, email all listed vendors with project specifications sufficient to build a quote, then solicit quotes from all vendors who express an interest with follow-up emails and telephone calls. Documentation of these efforts must be submitted as evidence, including copies of all e-mails sent.
- ☐ Solicit through all reasonable and available means (e.g., attendance at a vendor conference, advertising, written notices) the interest of BEP/VBP certified vendors that have the capability to perform the work of the contract. Vendor must solicit this interest with sufficient advance time to allow the BEP/VBP certified vendors to respond to the solicitation. Vendor must determine with certainty if the BEP/VBP certified vendors are interested by taking appropriate steps to follow up initial solicitations and encourage them to submit a bid or proposal, providing them with adequate information about the plans, specifications, and requirements of the contract in a timely manner to assist them in responding promptly to the solicitation.
- ☐ Select portions of the work to be performed by BEP/VBP certified vendors to increase the likelihood that the goal will be achieved. This includes, where appropriate, unbundling contract work items into

economically feasible units to facilitate BEP/VBP certified vendor participation, even when vendor might otherwise prefer to perform these work items with its own forces.

☐ Make a portion of the work available to BEP/VBP certified vendors by selecting portions of the work or needed material based on the availability of BEP/VBP vendors.

☐ Negotiate in good faith with interested BEP/VBP certified vendors. Evidence of such negotiation must include the contacted names, mailing addresses, email addresses, and telephone numbers of BEP/VBP certified vendors that were considered; a description of the information provided regarding the plans and specifications for the work selected for subcontracting; and evidence as to why additional agreements could not be reached for BEP/VBP certified vendors to perform the work. A Vendor using good business judgment may consider many factors in negotiating with BEP/VBP certified vendors and may take a firm's price and capabilities into consideration. The fact that there may be some additional costs involved in finding and using BEP/VBP certified vendors may not, in itself, be a sufficient reason for a Vendor's failure to meet the goal, as long as such costs are reasonable. Vendors are not required to accept higher quotes from BEP/VBP certified vendors if the price difference is excessive or unreasonable.

☐ Thoroughly investigate the capabilities of BEP/VBP certified vendors and do not reject them as unqualified without documented reasons. BEP/VBP certified vendors' memberships in specific groups, organizations, associations or political/ social affiliations are not legitimate causes for the rejection or non-solicitation of bids and proposals in Vendor's efforts to meet the goal.

☐ Where subcontractor capacity and/or access to capital prevents participation, make efforts to assist in obtaining available resources such as State of Illinois lending programs and the prime's lending, capital and bonding networks.

☐ Make efforts to assist interested BEP/VBP certified vendors in obtaining necessary equipment, supplies, materials, and related assistance or services.

☐ Utilized resources available to identify available certified vendors, including but not limited to Office of Procurement Diversity staff, BEP/VBP assistance staff; local, state and federal diverse business assistance offices; and other organizations that provide assistance in the recruitment and placement of diverse businesses.

☐ Follow best practices when conducting a Good Faith Effort. Best practices can be found on the BEP/VBP website at <https://cei.illinois.gov/purchasing-entity-resources/compliance.html>

SINGLE PRIME CONTRACTOR

PROFESSIONAL SERVICES CONSULTANT:

CONTRACT SUM: \$ **AMOUNT**

THIS AGREEMENT, made and entered into in the City of **CITY**, State of Illinois, as of the date of the last signature of the parties hereto, by and between **NAME OF CONTRACTOR, ADDRESS OF CONTRACTOR, a (n) INDIVIDUAL, SOLE PROPRIETOR, CORPORATION, OR PARTNERSHIP, existing under the laws of the State of _____**, hereinafter and in the Contract Documents referred to as the "Contractor" whose registered agent in Illinois is **NAME OF AGENT, ADDRESS OF AGENT**, and THE BOARD OF TRUSTEES OF THE UNIVERSITY OF ILLINOIS, a body corporate and politic of the State of Illinois, with its principal office in Urbana, Illinois, hereinafter and in the Contract Documents referred to as the "Owner",

WITNESSETH: That, for the consideration hereinafter stated, the Contractor and the Owner agree as follows:

1 THE CONTRACT WORK

The Contractor shall furnish all of the labor, materials, fixtures, furnishings, equipment, transportation, construction, plant, and facilities required for and shall perform all Contract Work on the Project and shall furnish and do everything required by the Contract Documents.

2 THE CONTRACT TIME

2.1 Starting Date. The Contractor shall commence the Work on the date specified in a written Notice to Proceed from the Owner.

2.2 Completion Date. Time is of the essence in this contract. The Contractor shall achieve Substantial Completion of the Work as expeditiously as the Work will permit, in such a manner as to cause no delay to any of the other contractors employed on the Project or to the completion of the Project as a whole and, subject to adjustments as provided by the Contract Documents, no later than _____ calendar days from the date specified in the Notice to Proceed (the "Substantial Completion Date").

The Contractor shall achieve Final Completion of the Project within thirty (30) days after Substantial Completion. Neither the Substantial Completion Date nor the time for Final Completion shall be changed except by Change Order issued in accordance with the terms of this contract.

<Alternate Clause: CFED – 50 SP Section 2 Liquidated Damages Alt>

<Yes option: CFED – 50 SP Section 2 Contract Time Liquidated Damages – Yes>

2.3 Liquidated Damages for Delay.

2.3.A For Delay in Substantial Completion. The parties acknowledge that the Contractor's failure to achieve Substantial Completion of the Work within the Contract Time provided by the Contract Documents will cause the Owner to incur significant actual damages of types and in amounts which are impossible or

extremely difficult to calculate and ascertain with certainty and accuracy. Accordingly, in lieu of actual damages for delay in Substantial Completion that is not caused solely by the Owner (hereinafter "Contractor Delay"), the Contractor agrees that liquidated damages will be assessed and recovered by the Owner against Contractor in the event of Contractor Delay and without the Owner being required to present any evidence of the amount or character of actual damages sustained by reason thereof. To the best of their ability and based on information available to them as of the time of entering into this Contract, Contractor and Owner have estimated that the fairest and best approximation of actual damages that will be incurred for each day of Contractor Delay beyond the Contract Time is _____ Dollars (\$_____) per calendar day unless reduced by the Owner. Therefore, in lieu of actual damages, Contractor shall pay Owner liquidated damages in the aforesaid amount per day for each calendar day of Contractor Delay. Such liquidated damages are intended to represent estimated actual damages and are not intended as a penalty, and Contractor shall pay them to Owner without limiting Owner's right to terminate this agreement for default as provided elsewhere herein.

- 2.3.B When Owner reasonably believes that Substantial Completion will be inexcusably delayed, Owner shall be entitled, but not required, to withhold from any amounts otherwise due Contractor an amount then believed by Owner to be adequate to recover liquidated damages applicable to such delays. If and when Contractor overcomes Contractor Delay for which Owner has withheld payment and Owner reasonably believes that there has been or will be no other event of Contractor Delay for which Owner would be entitled to withhold from amounts otherwise due Contractor, Owner shall promptly release to Contractor those funds withheld, in anticipation of liquidated damages.

THE REST OF SECTION 2.3 SHOULD BE REMOVED IF NO CM IS INVOLVED

- 2.3.C The Construction Manager shall monitor the progress of the Project against construction schedule to achieve Substantial Completion by the Completion Date. Contractor shall coordinate its Work with the Construction Manager to allow for monitoring progress.
- 2.3.D Disputes between or among two or more Subcontractors pertaining to the creation, application, and modification of the Construction Schedule, the furnishing of resources to meet the Construction Schedule, interferences and delays claimed between Subcontractors, default in any of the obligations of another Subcontractor that delays, interferes or otherwise harms Contractor or another Subcontractor, and other coordination and scheduling decisions involving Subcontractors ("coordination decisions") shall be resolved by Contractor consistent with the content and intent of the Contract Documents. The progress of the Work shall not be delayed, by action of Contractor in resolving claims by Subcontractors.
- 2.3.E [Deleted]
- 2.3.F In the event of a dispute between Contractor and Owner, Contractor's sole and exclusive remedy for all claims is use of and resort to the Claim provisions of the Contract Documents. The remedies provided therein against Owner in connection with actions by Contractor shall be exclusive.
- 2.3.G Contractor shall have no right of action against Owner, Construction Manager or Professional Services Consultant in connection with any dispute, or a decision rendered in connection with a dispute, between or among Contractor and its Subcontractors.

2.3.H Contractor shall conform to the scheduling requirements in the Contract Documents and the General Requirements of the Specifications and shall provide for expeditious and practical execution of the Work

<End Yes option>

<No option: CFED – 50 Section 2 Contract Time Liquidated Damages – No>

2.3 Remedies. In the event Contractor fails to perform under this Agreement, including but not limited to failure to achieve Substantial Completion or Final Completion, or both, in the time and manner provided, Owner shall be afforded the right to pursue any and all remedies available at law and equity.

<End No option>

2.4 Owner, the Construction Manager (if any) and Professional Services Consultant will not have control over, or charge of, construction means, methods, techniques, sequences or procedures, or for the safety precautions and programs in connection with the Work, because these are solely Contractor's rights and responsibilities under the Contract Documents. Neither will Owner, the Construction Manager (if any) and Professional Services Consultant be responsible for Contractor's failure to perform the Work in accordance with the requirements of the Contract Documents. Neither will Owner, the Construction Manager or Professional Services Consultant have control over or charge of or be responsible for acts or omissions of Contractor, Subcontractors, or their agents or employees, or of any other persons or entities performing portions of the Work.

3 THE CONTRACT SUM AND TERMS OF PAYMENT

3.1 The Contract Sum. The Owner shall pay to the Contractor, subject to additions to and deductions from the Contract Sum, the sum of AMOUNT IN WORDS 00/100 Dollars (\$) which shall constitute the Contract Sum. The Contract Sum is based upon the following base bids (including scope and amounts to be performed by the Contractor and Protected Subcontractors as identified in 00 10 00 Single Prime Section 2.1.A) and accepted alternate(s) if any, of Contractor and Protected Subcontractors which are described in the Contract Documents and are hereby accepted by the Owner:

(List Contractor Total Base Bid and Accepted Alternate(s), Division of Work and Accepted Alternates as well as Protected Subcontractor(s) Base Bid and Accepted Alternate(s) Here)

Note: No identified Protected Subcontractor may be terminated without the written consent of Owner.

3.2 Payments. The Owner shall make payments for Work under the contract as provided in Article 12 of the General Conditions.

3.3 Change Order Markups.

3.3.A Lump Sum and Time and Materials Changes. The following percentages for overhead and profit shall be added to, or as applicable, deleted from, job costs for the net amount of Work added to or deleted from the contract by written lump sum or time and material Change Orders approved by the Owner in accordance with the General Conditions. Insurance, bond, and taxes are considered as job cost items and are not included in the percentages listed below. In any one quotation for added work involving a series of Subcontractors, the cumulative percentages for the Contractor's and Subcontractor's overhead and profit shall not exceed twenty-five percent (25%). All costs shall be net costs including discounts realized by the contractor.

Add to the net extra job costs for added Work to be performed by:

- 1) Contractor's own forces 15 %
- 2) Subcontractors 5 %

Add to the net credit for job costs deleted for Work originally to have been performed by:

- 1) Contractor's own forces 5 %
- 2) Subcontractors 0 %.

3.3.B Unit Price Changes. All unit price Change Orders shall be based on the unit prices identified in the Contractor's bid, which include the Contractor's overhead and profit for the Work performed on the unit price basis. The above-mentioned percentages shall not be applied to unit price changes.

4 THE CONTRACT DOCUMENTS

4.1 The contract between the parties consists of the "Contract Documents". The Contract Documents include this Agreement, the Bidding documents, the General Conditions, the Construction Documents, any supplemental conditions, any special conditions, any subsequent Change Orders, field directives, and other written amendments to this Agreement, and all documents expressly annexed as part of this Agreement. Documents not described above are not Contract Documents and do not constitute part of the contract between the parties.

4.2 Addenda. The following addenda were issued prior to bid opening date and are hereby incorporated into this contract: ADDENDA **NUMBER**, dated **DATE**.

4.3 Order of Precedence. The order of precedence of the Contract Documents in the event of conflict shall be as defined in the General Conditions.

5 ASSIGNMENTS

Neither party shall assign the contract or sublet it as a whole without the written consent of the other. Any purported assignment without such written consent shall constitute a material breach hereof.

6 PERFORMANCE BOND AND PAYMENT BOND

The Contractor shall furnish the Owner a performance bond and a payment bond each in the penal sum of **AMOUNT IN WORDS 00/100 Dollars (\$)** as required by and in accordance with the terms of the General Conditions. Each bond shall name Owner as Obligee.

7 STATUTORY CERTIFICATIONS

7.1 The Contractor certifies that _____ is its Federal Taxpayer Identification Number and that it is doing business as a _____.

- 7.3.D Vendor further certifies that neither it nor any of its Agents is presently subject to an investigation or proceeding to exclude it as a provider under Medicare or Medicaid or under any other federal or state health care program or under any third party insurance program, nor is currently excluded or debarred from submitting claims to Medicare or Medicaid or to any other federal or state health care program or to any third party insurer.
- 7.3.E The following certification is applicable for professional services consultants and subconsultants only. Vendor agrees to make available, upon written request, to the Secretary of Health and Human Services, the Comptroller General of the United States, or any of their duly authorized representatives, this contract and any books, documents and records necessary to verify the costs of services rendered under this agreement. Vendor further agrees to make said contract and any books, documents and necessary records available until the expiration of four years after the completion of the agreement. In the event Vendor subcontracts any and all of its duties under this contract to another party and said subcontract has a value or cost of \$10,000 or more over a twelve (12) month period, Vendor agrees that the subcontract shall contain a clause requiring the subVendor to make available, upon written request, to the Secretary of Health and Human Services, the

Comptroller General of the United States or any of their duly authorized representatives, the subcontract and any books, documents and records of the subVendor that are necessary to verify the nature of the costs under the subcontract. Vendor agrees to indemnify and hold harmless the Owner in the event that any of its Medicare reimbursement is denied or disallowed due to the failure of Vendor or any of its subVendors to comply with the requirements of this provision. Such indemnity shall include but not be limited to the amount of reimbursement denied or disallowed, plus any interest, penalties and fees.

- 7.3.G The following certification is applicable for contractors and subcontractors only. Pursuant to the Prevailing Wage Act, Vendor shall pay a wage of no less than the general prevailing hourly rate as paid for work of a similar character in the locality in which the work is performed, to all laborers, workers and mechanics, pursuant to definitions, guidelines and procedures set forth in 820 ILCS 130/0.01 et. seq. (2010).
- 7.3.H The vendor shall submit monthly to Owner a certified copy of the records required under section 130/5(a)(1) of the Act. KNOW ALL MEN BY THESE PRESENTS: That we (Insert Proper Name of Surety), a corporation organized and existing under the laws of the State of and duly authorized to do business in the State of Illinois, as surety ("Surety"), and (Insert Proper Name of Contractor), (Insert Address), a (Insert Form of Entity) organized and duly authorized to do business in the State of Illinois, as principal ("Contractor"), enter into, execute this bond ("Performance Bond"), and firmly bind ourselves unto THE BOARD OF TRUSTEES OF THE UNIVERSITY OF ILLINOIS, as Obligee ("Owner"), in the penal sum of (AMOUNT IN WORDS) \$_____, as of the date of the last signature of the parties hereto.

WHEREAS, the Contractor has executed a contract with the Owner herewith ("Construction Contract") for construction of (Insert Description and Location of the Construction Project) ("Project"); and,

WHEREAS, the Owner has required the Contractor to furnish this Performance Bond containing the terms and conditions set forth herein as a condition to executing the Construction Contract with the Contractor;

NOW THEREFORE, the Surety and the Contractor, both jointly and severally, and for themselves, their heirs, administrators, executors, successors, and assigns agree:

1. The Construction Contract is hereby incorporated herein and by reference made a part hereof to the same extent and effect as though it was copied verbatim herein. The Surety and the Contractor are bound for the full performance of the Construction Contract including without exception all of its terms and conditions, both express and implied.
2. If Owner believes that Contractor is close to default, Owner reserves the right to contact Surety to notify Surety of potential default. If Owner, by written notice to the Contractor and the Surety, declares the Contractor to be in default and terminates the right of the Contractor to proceed, the Surety shall, within 15 working days, proceed to take one, or at its option, more than one of the following courses of action:
 - 2.1 Complete full performance of the Construction Contract, by using a completing contractor jointly selected by the Surety and Owner, including, without limitation, correction of defective and nonconforming work performed by or on behalf of the Contractor, pursuant to a written takeover agreement.
 - 2.2 During such performance by the Surety the Owner shall pay the Surety from its own funds only such sums as would have been due and payable to the Contractor under the Construction Contract as and when they would have been due and payable to the Contractor in the absence of the default and termination.
 - 2.3 Applicable law permitting, and with the prior written consent of the Owner, obtain bids or proposals from contractors previously identified as being acceptable to the Owner, for full performance of the Construction Contract. The Surety shall furnish the Owner a copy of such bids or proposals upon receipt of same. The Surety shall promptly select, with the agreement of the Owner, the best responsive bid or proposal and shall promptly tender the contractor submitting it, together with a contract for fulfillment and completion of the Construction Contract executed by the completing contractor, to the Owner for the Owner's execution. Upon execution by the Owner of the contract for fulfillment and completion of the Construction Contract, the completing contractor shall furnish to the Owner a performance bond and a separate payment bond, each in the form of those bonds hereby furnished to the Owner for the Project by the Contractor. Each such bond shall be in the penal sum of the (1) fixed price for completion, (2) guaranteed maximum price for completion, or (3) estimated price for completion, whichever is applicable. The Owner shall pay the completing contractor from its own funds only such sums as would have been due and payable to the Contractor under the Construction Contract as and when they would have been due and payable to the Contractor in the absence of the default and termination. To the extent that the Owner is obligated to pay the completing contractor sums which

would not have then been due and payable to the Contractor under the Construction Contract, the Surety shall provide the Owner with such sums in a sufficiently timely manner that the Owner can utilize such sums in making timely payment to the completing contractor; or,

- 2.4 Take any and all other acts, if any, mutually agreed upon in writing by the Owner and the Surety.
3. The Surety shall respond to the Notice within 15 working days of receipt indicating the course of action it intends to take or advising that it requires more time to investigate the default and selection a course of action. If the Surety requires more than 15 working days to investigate the default and select a course of action or if the Surety elects to complete the work with a completing contractor that is not prepared to commence performance within 15 working days after receipt of Notice, and if Owner determines that it is in the best interest of Owner to maintain progress of the work, the Owner may continue to work until the completing contractor is prepared to commence performance. Unless otherwise agreed to by Owner, in no case may the Surety take longer than 30 working days to advise Owner on the course of action it intends to take. The Surety shall be liable for reasonable costs incurred by Owner to maintain the progress to the extent the costs exceed the unpaid sums as would have been due and payable to the Contractor under the Construction Contract in absence of the default and termination, subject to the penal sum of the bond.
4. In addition to those duties set forth hereinabove, the Surety shall promptly pay the Owner all loss, costs, and expenses resulting from the Contractor's default(s), including, without limitation, fees, expenses, and costs for architects, engineers, consultants, testing, surveying and attorneys, liquidated or actual damages, as applicable, for delay in completion of the Project, and fees, expenses and costs incurred at the direction, request, or as a result of the acts or omissions of the Surety.
5. In no event shall the Surety be obligated to the Owner hereunder for any sum in excess of the Penal Sum.
6. The Surety waives notice of any changes to the Construction Contract including, without limitation, changes in the contract time, the contract price, or the work to be performed.
7. This Performance Bond is provided by the Surety for the sole and exclusive benefit of the Owner and, if applicable, any dual obligee designated by rider attached hereto, together with their heirs, administrators, executors, successors or assigns. - 1.4 "Change Order" means a written order to a Contractor executed by the Owner in accordance with the contract authorizing and directing an addition to, deletion from, or adjustment or revision of the requirements of the Contract Documents, or an adjustment to the compensation payable to Contractor, or to the time for performance of the contract and completion of the Project, or a combination thereof. All additional expenditures related to Work performed or material purchased through an agreement with a Contractor will ultimately take the form of a Change Order.

Whenever BEP/VBP utilization is shown as 0% or not identified on Attachment B and no GFE is included, the bidder will be deemed non-responsive and the bid will be rejected as a material condition. By the end of the cure period, Bidder shall submit an updated utilization plan and updated documentation of their good faith efforts to achieve the diversity participation goals, if the goals are not met. Failure to submit such documentation or to use good faith efforts, shall result in rejection of the bid. Good faith effort documentation is not required when diversity participation goals have been met
- 1.8 "Emergency Work Authorization" means a written order to a Contractor executed by the Owner in accordance with the Agreement and directing an adjustment to the Contract Document requirements. An Emergency Work Authorization shall be utilized only in instances of a threat to public health or safety, loss of or damage to property or the integrity of vital records, or serious disruption of essential services. Field Directives may only be utilized in distinct and exceptional situations when, due to circumstances beyond the Owner’s control, a proposed Change Order is in dispute or the contemplated time of completion for the normal Change Order process could adversely affect the project. Prior to commencement of Work, the Owner shall set forth on the appropriate form “not-to-exceed” time and material costs for the contemplated expenditure. In the event that Work is called for by the drawings but not by the specifications, or by the specifications but not by the drawings, the Contractor shall be responsible for such Work.

2.3 Intent. The intention of the Contract Documents is to include all labor, materials, equipment, transportation, construction plant, and facilities necessary for the proper execution and completion of the Work, and the terms and conditions of payment therefor. All work not specifically excluded in the Contract Documents which is reasonably and properly inferable therefrom, or from accepted trade practice, or which is necessary for the proper completion of the Work, is included even though not specifically mentioned in or called for by the Contract Documents.

3 ARTICLE 3 - REPRESENTATIONS AND WARRANTIES

3.1 Representations and Warranties. Contractor makes the following representations and warranties to Owner:

3.1.A Contractor is professionally qualified to act as the Contractor for the Project and has, and shall maintain, any and all licenses, permits, and other authorizations necessary to act as the Contractor for the Project and to perform the Work required hereunder.

3.1.B Contractor has become familiar with the Contract Documents provided to date and will become familiar with all provided hereafter, and has become familiar with the Project site and the local conditions under which the Project is to be constructed.

3.1.C Contractor has the capability and experience, including sufficient qualified and competent supervisory personnel, to efficiently and timely accomplish the Work, and Contractor will continuously furnish sufficient personnel to accomplish the Work in a timely and efficient manner.

3.1.D Contractor shall comply, and shall cause all Subcontractors to comply, with all Applicable Laws.

3.1.E Contractor assumes full responsibility to Owner for the acts and omissions of its officers, employees, Subcontractors, consultants, and others employed or retained by it or them in connection with the performance of the Work.

3.1.F Contractor warrants to Owner that all labor furnished to perform the Work under the Contract Documents will be competent to perform the tasks undertaken, that the product of such labor will yield only first-class results, that materials and equipment furnished will be of good quality and new unless otherwise permitted by the Contract Documents, and that the Work will be of good quality, free from faults and defects, and in strict conformance with the Contract Documents. Any Work not conforming to these requirements may be considered defective.

3.1.G All obligations related to or arising from all representations and warranties made in the Contract Documents shall be obligations of, and shall be deemed incorporated in, the performance bond furnished by Contractor.

- 3.2 Enumerated Representations and Warranties Not Exhaustive. The representations and warranties enumerated in this Article 3 operate in addition to, and shall not supersede, limit, or restrict any other duty, responsibility, representation, or warranty, express or implied, created or required by the Contract Documents or by law.

4 ARTICLE 4 - CONTRACTOR'S DUTIES: GENERAL PROVISIONS

- 4.1 Generally. Contractor shall perform and provide the Work required by, or reasonably implied by or inferable from, the Contract Documents, shall be responsible for the construction of the Project in conformance with the requirements of the Contract Documents, and shall pay for all labor, supervision, materials, supplies, furnishings, fixtures, equipment and things required by the Contract Documents.
- 4.2 Standard of Care. Contractor shall perform the Work at a level, and be judged by a standard of care, that is consistent with the standards and quality prevailing among nationally recognized contracting firms of superior knowledge, skill and experience engaged in projects of similar size and complexity. Contractor shall carry out and complete the Work in an efficient, economical and timely manner, as expeditiously as is consistent with the level of skill and care required hereby and the interests of Owner, and in strict accordance with the Contract Documents.
- 4.3 Permits, Notices, and Fees. Contractor shall secure and pay for the building permit, if required by the University, and other permits and governmental fees, licenses and inspections necessary for completion of the Work which are customarily secured after execution of the contract. Building permits are not required when working on University owned buildings or land. The Contractor shall comply with, and give notices required by, Applicable Laws. Except as above provided, Owner shall obtain necessary approvals, easements, and shall pay for assessments and charges required for construction.
- 4.4 Compliance with Applicable Laws. Contractor shall reasonably ensure that the Work is performed, and the Project is constructed, in a manner which meets the requirements of all Applicable Laws relating to the construction, occupation, and operation of the Project, including, but not limited to, building codes, fire and safety regulations, and environmental regulations. Such Applicable Laws shall be deemed minimum standards for the Project. Where the requirements of the specifications and the accompanying drawings exceed those of the Applicable Laws, the drawings and specifications shall control. Contractor shall immediately report to Owner's Representative in writing any known or anticipated violation by any Subcontractor of any Applicable Law.
- 4.5 Communications in Writing. All communications relating to the Project between Contractor and Owner's Representative shall be in writing or, as applicable, shall be confirmed in writing.
- 4.6 Reporting Anticipated Delays. Should Contractor, at any time during the course of the Project, have reason to believe that Contractor, Professional Services Consultant, or any Subcontractor will be unable to meet a completion date of any activity which is on the critical path of the Project or which may delay Contractor, any Subcontractor, the Professional Services Consultant, or the progress of the Project, Contractor shall immediately notify Owner's Representative in writing, stating the reason for the delay, describing steps being taken to remedy the delay, and recommending steps for eliminating or reducing the extent and impact of such delays.
- 4.7 Duty to Correct. Contractor shall promptly correct any errors, omissions, deficiencies, or conflicts in the Work at its own cost and without additional compensation or reimbursement, and Contractor shall not be compensated or reimbursed for performing any services necessitated by its failure to perform in strict accordance with the Contract Documents.

- 4.8 Cooperation of Contractor and Subcontractors. The Contractor shall cooperate and work in harmony with its Subcontractors and other contractors so that all of the Work will be performed without undue delay or friction.

The Contractor shall allow its Subcontractors and other contractors adequate time to furnish and locate sleeves, openings, inserts, hangers, anchors, conduits, and other items of any description which are to be built into the Work. Any delays or prospect of delay shall be promptly reported in writing to the Professional Services Consultant.

If any part of the Contractor's Work depends for proper execution or results upon other work, the Contractor shall inspect and promptly report to the Professional Services Consultant any defects in such Work that render it unsuitable for such proper execution and results. The Contractor's failure so to inspect and report shall constitute an acceptance of the other work as fit and proper for the reception of the Contractor's Work, except as to defects which may develop in the other work after the execution of the Contractor's Work.

To insure the proper execution of the Contractor's subsequent Work, the Contractor shall measure Work already in place and shall at once report to the Professional Services Consultant any discrepancy between the executed Work and the Drawings.

5 ARTICLE 5 – CONSTRUCTION SCHEDULE

- 5.1 Preparation of Schedule. Within fifteen (15) days after receipt of the Notice to Proceed from the Owner, Contractor shall provide to Owner's Representative and Professional Services Consultant a detailed schedule for performance of all of the Work (the "Construction Schedule"). The Construction Schedule shall be provided in Microsoft Project or Primavera P6 format (.pdf and native files), and other such form as Owner may require, and shall, unless otherwise agreed by Owner in writing, utilize the critical path method of scheduling, and shall conform to the established Substantial Completion Date. The Construction Schedule shall coordinate and sequence all activities and performance by all participants in the construction of the Project, including Owner, Contractor, Professional Services Consultant and Subcontractors. The Construction Schedule shall identify those activities and events which are on the critical path. At the Owner's discretion, Contractor may be required to identify (8) or more important activities or milestones on the Construction Schedule with required completion dates that shall be established in addition to the established Substantial Completion Date. At the Owner's discretion, Contractor may be required to submit electronic versions of the Construction Schedule, in native file format.

- 5.1.A Form of Schedule. The project schedule shall provide sufficient detail and clarity so that the contractor can plan and control work, and the Owner, Architect/Engineer, or Construction Manager can readily monitor and follow the progress of all portions of the work. The project schedule must be in the Critical Path Method format, which is identified by the longest connected chain of interdependent activities through the network schedule that establishes the minimum overall project duration and contains no float. Critical activities, including the (8) or more important activities or milestones referenced in section 5.1, must be clearly shown. The schedule shall be mathematically analyzed by contractor initially and at every update, milestone, or revision, and shall include:

5.1.A.1 Preceding and following event by number.

5.1.A.2 Activity description and duration.

5.1.A.3 Earliest start and finish dates for each activity.

5.1.A.4 Latest start and finish calendar dates for each activity.

5.1.A.5 Actual start and finish dates for each activity.

- 5.1.A.6 Total float in work days for each activity.
- 5.1.A.7 Percentage complete for each activity.
- 5.1.A.8 Show activity constraints, precedent activities, logical constraints, restrained starts, and restrained finish dates.
- 5.1.B Contents of Schedule. At a minimum, unless otherwise approved by the university, the project schedule must be inclusive of all installation tasks of the work and shall include submittal and approval of shop drawings and material samples, including time for submittal reviews and re-submittals as well as delivery dates of critical materials and major equipment, pre-testing and commissioning of equipment (if applicable per university requirements), and Owner training. There should be at least one activity for each specification section. Major trade work shall be broken down by areas, tasks, systems, material, and equipment. The project schedule shall include logic ties indicating precedent tasks and activities for all line items. The project schedule shall indicate float for each activity where applicable and allow for contingencies to provide for unanticipated impacts to the schedule. The project schedule shall include the anticipated number of calendar days for each month during which construction activity exposed to weather conditions is expected to impact the critical path. Suspension of construction activity for the number of days each month as established in the project schedule is included in the Work and is not eligible for extension of Contract Time.
- 5.2 Owner's Acknowledgment of Construction Schedule. Upon Owner's written acknowledgment of the Construction Schedule, Contractor may proceed in accordance therewith; provided, however, Owner's acknowledgment of any schedule shall only indicate Owner's acknowledgment of the dates contained therein and shall not constitute ratification or approval of the accuracy, adequacy, or logic of such schedules, or of the means, methods, manner or sequence of Work contained in such schedules. Owner's acknowledgment of the Construction Schedule shall in no way diminish Contractor's duties to schedule and coordinate the Work, which shall remain Contractor's sole responsibility, and shall not diminish or excuse Contractor's duties to perform in a manner so as to achieve timely completion of the Project. In no event shall updates to the Construction Schedule provided by Contractor whether or not objected to or acknowledged by Owner, constitute evidence of an adjustment in the Substantial Completion Date or Contractor's entitlement to additional compensation hereunder.
- 5.3 Updating of Schedules. Contractor shall update the Construction Schedule on a bi-weekly basis, or frequency established by Owner, and in compliance with all requirements of section 5.1 throughout the construction of the Project to reflect accurately Work accomplished and to be accomplished. Such updates of the Construction Schedule shall be furnished to Owner's Representative and Professional Services Consultant monthly and shall detail all elements of Project progress and shall identify any delays relating to any activity on the critical path of the Project, the cause and extent of same, the projected impact on Substantial Completion of the Project by the Substantial Completion Date, and steps being taken and recommendations for eliminating or reducing the extent of such delays. The Contractor shall be responsible to certify the accuracy of the project schedule on a bi-weekly basis using any supplemental tools provided by the Owner, including web-accessible tools provided by the Owner documenting the (8) or more important activities or milestones stipulated in section 5.1.
- 5.4 Expediting to Maintain Schedule. Contractor at its sole expense, shall take all reasonable steps to expedite performance of any activity, contract, delivery, or inspection where necessary to mitigate any delay, to maintain the Construction Schedule, and to achieve Substantial Completion by the Substantial Completion Date.

- 5.5 Contractor shall conform to the scheduling requirements in the Contract Documents and the General Requirements of the Specifications and shall provide for expeditious and practical execution of the Work.
- 5.6 Owner, Professional Services Consultant and Construction Manager if applicable, will not have control over, or charge of, construction means, methods, techniques, sequences or procedures, or for the safety precautions and programs in connection with the Work, because these are solely Contractor's rights and responsibilities under the Contract Documents. Neither will Owner, Professional Services Consultant or Construction Manager be responsible for Contractor's failure to perform the Work in accordance with the requirements of the Contract Documents. 6 ARTICLE 6 - SUBCONTRACTS

- 6.1 Contractor to Subcontract. Contractor shall enter into Subcontracts with Subcontractors for the performance of those portions of the Work not performed directly by the Contractor. Except as set forth in paragraph 6.2, Contractor shall, within thirty (30) days after notification of award of the contract, notify the Owner and the Professional Services Consultant in writing of the names of Subcontractors proposed for the principal parts of the Work and for such others as the Professional Services Consultant may direct. Contractor shall simultaneously provide the Professional Services Consultant and the Owner's Representative with such written information as Owner deems necessary in order to determine whether to object to the Contractor's hiring of any Subcontractor or consultant, including proof of license. If no objection is interposed by the Owner within seven (7) days of its receipt of such information, Owner shall be deemed to have no such objection and Contractor may execute such Subcontract and shall furnish Owner a copy of same. Contractor shall not subcontract for any part of the Work with any Subcontractor or consultant (including affiliates and subsidiaries of Contractor) who is not properly licensed or against whom Owner has a reasonable objection. The Contractor shall bind every Subcontractor by all of the provisions of the Contract Documents which are applicable to such Subcontractor's Work unless specifically noted to the contrary in a Subcontract approved in writing by the Owner. The Contractor shall pay the Subcontractor the amount allowed to the Contractor on account of the Subcontractor's work to the extent of the

Subcontractor's interest therein, or pay the Subcontractor to such extent as may be provided by the Contract Documents or the Subcontract, if either of these provides for earlier or larger payments than the above. Nothing in paragraph 6.1 shall create any obligation on the part of the Owner to pay or to see to the payment of any sums to any Subcontractor.

- 6.2 Related Parties. Contractor must notify Owner in writing of the specific nature of any contemplated transaction with any Related Party and any such transaction must be approved in writing by Owner before the transaction is consummated or costs are incurred. A "Related Party" may include any of the following: a parent, subsidiary or other entity having common ownership or management with Contractor; entities in which stockholders in, or management employees of, Contractor owns an interest; any person or entity with the right to control the business or affairs of Contractor; and any member of the immediate family of any such person. The terms of any such transaction shall conform to the requirements of the Contract Documents, including, but not limited to, the right to audit books and records pertaining to the Work undertaken by such Related Party, which audit may be undertaken by Owner or its representatives. All other terms and provisions of any such subcontract are subject to Owner's approval. All savings under any such subcontract shall be applied to reduce the Owner's costs under this Agreement and profit related to the transaction shall not be payable to any such Related Party.

- 6.3 Assignment of Work. In compliance with the Illinois Procurement Code, the following five (5) subdivisions of the Work, if applicable to this Project, were identified in Contractor's bid as to be performed by the Contractor and or Protected Subcontractors for prices identified in the bid:

- plumbing;
- heating, piping, refrigeration, and automatic temperature control systems, including the testing and balancing of those systems;
- ventilating and distribution systems for conditioned air, including the testing and balancing of those systems;
- electric wiring; and,
- general contract work.

The Owner has accepted the Contractor's bid containing the identification of the Protected Subcontractors with which Contractor is to enter into a subcontract for the performance of each specified scope of Work. Performance of portions of the Work by the Protected Subcontractors does not relieve Contractor from responsibility to Owner for performance of the Work identified to be performed by Protected Subcontractors.

- 6.3.A Status of the Contractor. The Contractor shall be responsible for the performance of the Work and shall be as fully responsible to the Owner for the acts and omissions of the Protected Subcontractors and all persons either directly or indirectly employed by them as the Contractor is for the acts and omissions of persons directly employed by the Contractor or with whom the Contractor has directly entered into Subcontracts for portions of the Work to be performed by Contractor.

- 6.3.B Payment of Protected Subcontractors. The Contractor shall be responsible to the Protected Subcontractors for all payments and the Protected Subcontractors shall look to the Contractor for such payments.

Except as provided in this paragraph 6.3, the Contractor shall subcontract directly with all Subcontractors.

- 6.4 Subcontract Requirements. Excepting only the provisions contained in paragraph 2.3 of the Agreement between Owner and Contractor, all Subcontracts shall afford Contractor rights against its Subcontractors which correspond to the rights afforded to Owner against Contractor herein, including those rights of contract suspension, termination, replacement of unsatisfactory personnel at Owner's request, and documentation of Subcontractor charges as set forth herein. Except as otherwise approved by Owner in writing, all Subcontracts shall provide for the retention of ten percent (10%) of amounts earned under the Subcontracts ("Subcontract Retainage"), and Owner shall not be responsible for releasing, paying, or compensating Contractor any amount on account of such Subcontract Retainage until such time as specified herein for release of retainage.

The documents and information for the contractors and subcontractors listed in Table 1 and as described below must be provided by the Owner to the Chief Procurement Officer for Higher Education.

Table 1: Contracts and Level Descriptions

Contract Type	Level	Contract	Dollar amount
Single Prime	1	With Owner	All
Protected Subcontractor	2	With Single Prime	All
Subcontractor*	2 or 3	With Single Prime or Protected Subcontractor	> \$50,000
Subcontractors' Subcontractor *	3 and below	With Level 2 and below	> \$50,000

* Certifications are required for >\$50,000 and Financial Disclosures are required for >\$100,000

Level 1 Contractor

- 6.4.A The Form A, Form B Certifications and Disclosures, or the submitted CPO Financial Disclosure Affidavit submitted by the Level 1 Contractor with the Bid documents are hereby made part of this contract.
- 6.4.B The Supplemental University of Illinois Certifications identified in the Statutory Certifications section on the Contract in addition to the Form A, Form B Certifications and Disclosures, or CPO Financial Disclosure Affidavit are incorporated into this contract. By executing this Agreement, the Level 1 Contractor acknowledges and agrees that it is in compliance with the requirements of Article 50 of the Illinois Procurement Code (30 ILCS 500/50). These requirements remain in effect for the term of the Agreement. The Level 1 Contractor certifies compliance and is under a continuing obligation to remain in compliance and to immediately report any non-compliance.

It is the responsibility of the Level 1 Contractor to provide the following with respect to each Level subcontract* which exceeds \$50,000. The forms shall be completed and signed by each Level subcontractor*.

- subcontractor(s) name(s)
- address(es)
- subcontract value(s)
- general type(s) of work to be performed

- • Form A, Form B, or CPO Financial Disclosure Affidavit
 - Certifications are required for greater than \$50,000
 - Financial Disclosures are required for greater than \$100,000

Note: Filling out Form A or Form B will satisfy the above certifications and financial disclosure requirements. However, in circumstances where the contractor has an active contract with the owner and has already vetted their financial disclosures and potential conflicts of interest from that active contract within the last 12 months from the date of contract award on the Illinois Procurement Bulletin, the contractor may submit a signed CPO Financial Disclosure Affidavit attesting that the original submission of its financial disclosures and potential conflicts of interest have not been altered or changed. This affidavit may be used, under the circumstances referenced in 30 ILCS 500/50-35(j), in place of the full Financial Disclosures and Conflicts of Interest form otherwise required by the Procurement Code and will satisfy the certification requirements referenced above.

The Supplemental University of Illinois Certifications identified in the Statutory Certifications section below are to be implemented into all subcontractors on this project.

The documents submitted to the Owner shall be in electronic pdf format and follow the Owner's file naming convention. The forms and file naming convention can be found at: https://www.uocpres.uillinois.edu/contracts_forms_for_contractors. These documents shall be provided to the Owner within 15 calendar days after the execution of the Contract or after execution of the subcontract, whichever is later.

The Level 1 Contractor must provide the above information for any Level subcontractors* added or changed which results in a contract value exceeding \$50K during the term of the contract.

Any subcontracts entered into prior to receiving a fully executed copy of the Contract are done at the Contractor's or Assigned Subcontractor's own risk.

- 6.5 Coordination of the Subcontracts. Except as set forth in paragraph 6.3 above, neither Owner nor Professional Services Consultant assumes any responsibility for defining the limits on any Subcontracts on account of the arrangement of the specifications or drawings. As part of the bidding and award of Subcontracts, Contractor shall ensure that the Subcontracts are coordinated so that all of the Work is properly and clearly allocated among, and assigned to, Contractor and Subcontractors without omission, conflict, or duplication. Contractor shall carefully review all Subcontracts to ensure: (a) that all subcontracted parts of the Work are assigned to appropriate Subcontractors; (b) that, unless provided for by Contractor, provisions are made for temporary facilities and utilities necessary for the performance of the Work and for Project site facilities necessary for Contractor, Owner, and Professional Services Consultant to perform their duties in the management, inspection, and supervision of the Work; (c) that responsibility for Project safety programs is properly assigned; (d) that they are in compliance with Applicable Laws; and (e) that they are in compliance with Owner's and Contractor's guidelines, if any.
- 6.6 Competitive Procurement. If directed by Owner, Contractor shall use competitive procurement methods in conformance with Owner's procurement policies and with any rules and regulations of any governing authority who has jurisdiction over the Project.
- 6.7 Contractor Responsible for Acts of Subcontractors. Contractor's subcontracting of the Work, and Owner's consent and approval of Contractor's subcontracting with any Subcontractor, shall not relieve Contractor from any liability or obligation under the Contract Documents or under any Applicable Laws. Contractor shall be responsible for any and all acts, defaults, omissions or negligence of its Subcontractors and consultants, and shall be

and remain liable and obligated to Owner for all Work subcontracted. Except as set forth in paragraph 6.3, no relationship of agency, employment, contract, obligation or otherwise shall be created between Owner and any Subcontractor or consultant of Contractor, and a provision to this effect shall be inserted into all Subcontracts and other agreements between Contractor and its Subcontractors and consultants. In no event shall Owner be liable to any of Contractor's Subcontractors for Work performed by such Subcontractor on behalf of the Contractor or for the Project. Professional Services Consultant will not be asked to resolve disputes between Contractor and any Subcontractor or disputes between Subcontractors.

- 6.8 **Procurement of Special Services.** Contractor shall schedule and coordinate services from surveyors, testing laboratories, and other special consultants required for the completion of the Work.
- 6.9 **Orders of Materials, Fixtures, Furnishings and Equipment.** Contractor shall schedule, coordinate, expedite, and effect the purchase and delivery to the Project site of materials, fixtures, furnishings and equipment required to be provided by Contractor pursuant to the Contract Documents. Contractor shall perform expediting and inspection services after the placement of all such orders.
- 6.10 **Substitutions.** If Owner elects to accept any item(s) proposed by Contractor as a substitution, Contractor shall assume full responsibility for the proper performance of such substituted item(s) and shall assume the costs of any changes in the Work which may be due to such substitution.
- 6.11 **Procurement of Materials, Fixtures, Furnishings and Equipment on Owner's Behalf.** Contractor shall be responsible for scheduling and coordinating, and if requested by Owner's Representative, for purchasing and for arranging appropriate delivery, storage and security for, all materials, furnishings, tools, fixtures, computers, and equipment to be furnished by Owner under the terms of the Contract Documents for use in performance and completion of the Work. The purchase price and transportation and storage costs associated with such items shall be borne by Owner.

7 **ARTICLE 7 - CONSTRUCTION ADMINISTRATION**

- 7.1 **Review and Approval of Subcontractor Schedules of Values.** Contractor shall procure, and carefully review, all schedules of values from each Subcontractor, together with any supporting documentation or data which Owner or Contractor may require from the Subcontractors. The purpose of such review and examination shall be to protect Owner and Contractor from front-end loading and an unbalanced schedule of values which allocates greater value to certain elements of the Work than is indicated by such supporting documentation or data or than is reasonable under the circumstances. If any Subcontractor's schedule of values is found not to be appropriate, or if the supporting documentation or data is deemed to be inadequate, Contractor shall negotiate with the Subcontractor to establish a balanced schedule of values. After making its review and examination, when the Subcontractor's schedule of values is found by Contractor to be appropriate as submitted, or if necessary, as revised, Contractor shall sign and deliver same to the Professional Services Consultant thereby indicating Contractor's informed belief that such schedule of values constitutes a reasonable, balanced basis for payment to the Subcontractor. Contractor shall not sign a Subcontractor's schedule of values in the absence of such belief unless directed to do so, in writing, by Owner's Representative.
- 7.2 **Supervision.** Contractor shall maintain a continuous presence on the Project site at all times through the provision of sufficient qualified supervisory and other personnel to perform the obligations of this contract. Contractor shall continually supervise its own forces and those of its Subcontractors in a first-class manner. Contractor shall determine the adequacy of personnel, labor, materials, equipment and direct supervision provided by Subcontractors and shall monitor their compliance with the Construction Schedule. The

jobsite superintendent shall be present at the project site in strict accordance with the project specifications, Division 01 00 00 - General Project Requirements. The jobsite superintendent shall not be changed without the consent of the Professional Services Consultant and Owner unless the jobsite superintendent proves to be unsatisfactory to the Contractor and ceases to be in the Contractor's employ. The jobsite superintendent shall be the Contractor's representative at the jobsite and all directions issued by the Professional Services Consultant or Owner to the jobsite superintendent shall be as binding as if given directly to the Contractor. Directions of major importance shall be confirmed in writing to the Contractor. Directions of lesser importance shall be confirmed on written request in each case.

- 7.3 Job Progress Meetings. Contractor shall conduct meetings at least weekly, and at such additional times as the needs of the Project or good construction practice may require, with the Subcontractors, and if necessary with Professional Services Consultant, for the purpose of discussing all matters relating to the quality, quantity, and progress of the Work. Contractor shall within two (2) working days after each meeting prepare and distribute minutes of such meeting to Owner's Representative, the Professional Services Consultant, the participants, and others who should reasonably be informed of the meetings.
- 7.4 Requests for Information and Interpretation. Where appropriate, Contractor shall transmit to Professional Services Consultant, with a copy to Owner's Representative, requests for information or interpretation from itself or as made by any Subcontractor regarding the intent and meaning of the Construction Documents. Contractor shall maintain a log of all requests for information and interpretation (the "Request Log"), recording (a) the date each request was made; (b) the date the request was transmitted to Professional Services Consultant and Owner's Representative; (c) the date of receipt of the response to the request; and, if applicable, (d) the date the response to the request was transmitted to the Subcontractor.
- 7.5 Submittals. Contractor shall review, and indicate its approval (or require re-submission if necessary) prior to forwarding to Professional Services Consultant and Owner each submittal required by the Contract Documents, including shop drawings, product data, samples, catalogues, and other submittals (collectively, "Submittals"). Approval by Contractor of Submittals shall constitute Contractor's representation to Owner and Professional Services Consultant that such Submittals are in conformance with the requirements of the Contract Documents. The review and approval required by this paragraph shall be completed with reasonable promptness, and expedited where necessary, so as to cause no delay to the Subcontractors, Professional Services Consultant, or the Project. Contractor shall also maintain a detailed log (the "Submittal Log"), reflecting: (a) the date, where applicable, the Subcontractors submit to Contractor, and that Contractor submits to Professional Services Consultant, each Submittal; (b) the date of approval or rejection of each Submittal by Contractor or Professional Services Consultant; (c) the reason for the rejection of any Submittal; and (d) the date of each subsequent action by Contractor, Professional Services Consultant, Owner, or Subcontractors with respect to any Submittal. Contractor shall immediately report to Owner's Representative in writing any delays in the Submittal process and the cause thereof and shall take appropriate steps to coordinate and expedite the Submittal process. The Professional Services Consultant's review or approval of Submittals shall not relieve the Contractor from its obligation for performance of the Work in strict compliance with the Contract Documents.
- 7.6 Liens. Contractor shall promptly pay all indebtedness for labor, materials, services, tools and equipment, and for any other items used in the performance of the Work. Contractor shall not permit any notice of lien or charge to attach to the Work, the premises upon which the Work is being performed or against any public funds being held by the Owner to pay for Work on the Project. If any lien does so attach, Contractor shall promptly procure its

discharge and hold Owner harmless from any claims, losses, costs, damages or expenses (including attorney's fees) incidental thereto.

- 7.7 Labor Relations. Contractor shall develop and implement a coordinated plan for labor relations to avoid labor disputes and to provide for the uninterrupted and efficient construction of the Project in accordance with the Construction Schedule, shall comply, and shall require all Subcontractors to comply, with Applicable Laws relating to the terms and conditions of employment of any employee who is employed in connection with the Project.
- 7.8 Protection of Persons and the Work. Contractor shall at all times take, or require to be taken, all necessary steps required to safeguard Owner's property and employees from injury or loss in connection with the performance of the Work. Contractor shall take, or require to be taken, all necessary steps to protect Owner's equipment, adjacent facilities, apparatus, and other property and all adjacent Work and property, including, but not limited to, the use of shoring, boarding, and other safeguards. Where the Work endangers the safety of pedestrians and drivers, barricades for traffic shall be used. Contractor shall keep Owner's property and the Work reasonably free from dampness, dirt, dust, and other damage and shall provide all reasonable security measures necessary to protect the Project from the elements, vandalism, theft, and other risks of property loss. All temporary protections shall be removed by Contractor upon completion of the Work.
- 7.9 Demolition, Removal of Materials, and Burning. Except with prior written approval of the Owner, the use of explosives will not be permitted. The procedure proposed for the accomplishment of any required demolition work shall be submitted to Professional Services Consultant and Owner's Representative for approval. The procedure shall provide for safe conduct of the work, careful removal and disposition of materials, protection of property which is to remain undisturbed and coordination with other Work in progress. The procedures shall include a detailed description of the methods and equipment to be used for each operation, and the sequence of operations. All materials indicated to be removed shall be disposed of off the Owner's property. The use of burning at the Project site to dispose of refuse and debris is not permitted.
- 7.10 Site Limitation. Contractor shall obtain Owner's Representative's written authorization before establishing staging or "lay-down" areas.

8 ARTICLE 8 - UNCOVERING AND CORRECTING WORK

- 8.1 Uncovering Work Covered Contrary to Directions. If any of the Work is covered contrary to the request of Owner's Representative or the Professional Services Consultant, or contrary to any provision of the Contract Documents, said Work shall, if required by Owner's Representative or the Professional Services Consultant, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Substantial Completion Date.
- 8.2 Option to Order Work Uncovered. If the Contract Documents permit the Work to be covered and neither Owner's Representative nor the Professional Services Consultant has requested that the Work not be covered, the Professional Services Consultant and Owner's Representative may nevertheless require that such Work be uncovered for inspection. If such Work conforms strictly with the Contract Documents, the cost of uncovering and proper replacement shall by Change Order be charged to Owner with an appropriate adjustment to the Contract Sum and, if appropriate, the Substantial Completion Date. If such Work does not strictly conform with the Contract Documents, Contractor shall pay the cost of uncovering and proper replacement without adjustment to the Contract Sum or the Substantial Completion Date.
- 8.3 Correction of Defective Work. Contractor shall immediately proceed to correct Work rejected by Owner's Representative or by the Professional Services Consultant as

defective or failing to conform to the Contract Documents, unless such Work is accepted in accordance with paragraph 8.6 below. Contractor shall bear all costs and expenses associated with correcting such rejected Work, including any additional testing and inspections and any fees and expenses of the Professional Services Consultant made necessary thereby, without adjustment to the Contract Sum or the Substantial Completion Date. If additional design is required for correction of defective Work, the Contractor shall use the Owner's Professional Services Consultant for all design changes that may be allowed from the original design, at the rates established within the Owner's/Professional Services Consultant Agreement. The Contractor will be assessed these costs through a deductive change order.

- 8.4 Correction During One Year Following Completion. If within one (1) year after Substantial Completion any of the Work is found to be defective or not in strict accordance with the Contract Documents, Contractor shall correct such Work promptly upon receipt of written notice from Owner and shall bear all costs and expenses associated therewith. This obligation shall survive Final Payment by Owner and termination of this contract.
- 8.5 No Period of Limitation Established. Nothing contained in paragraph 8.4 shall establish any period of limitation with respect to Contractor's other obligations and warranties under the contract, including, without limitation, Article 3. Establishment of the one year time period in paragraph 8.4 relates only to Contractor's specific duty to correct the Work.
- 8.6 Owner's Option to Accept Defective Work. Owner may, at its sole discretion, choose to accept defective or nonconforming Work. Such acceptance shall not be effective unless specifically and expressly stated in writing by Owner's Representative. In such event, any sums then or thereafter due or owing to Contractor shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Work, regardless of whether Final Payment has been made or the defective Work replaced or corrected, the intent being that Owner may use such funds to remedy such defects at a time and in a manner convenient to Owner. If any such sum is insufficient to compensate Owner for the acceptance of defective or nonconforming Work, Contractor shall, upon written demand from Owner, pay Owner any shortfall of compensation for accepting defective or nonconforming Work.

9 ARTICLE 9 - INSPECTIONS AND CERTIFICATIONS OF COMPLETION

- 9.1 Inspection of Work. Contractor shall, on a continuous basis as a part of its day-to-day supervision of the Project, inspect the Work to ensure that the quality, quantity and progress of the Work meets the requirements of the Contract Documents. In making such inspections, Contractor shall reject Work that is defective or deficient, take steps to avoid unexcused delays in the performance of the Work, and protect Owner from overpayment.
- 9.2 Equipment and Other Items. When instructed by Owner's Representative, Contractor shall schedule and perform factory testing and shop inspections of equipment, fixtures, furnishings, and other items. Such testing and inspections shall be performed at times appropriate to the stage of fabrication, construction, installation, and testing of such items. Contractor shall notify Professional Services Consultant and Owner's Representative prior to each such testing or inspection, and Professional Services Consultant and Owner's Representative or designee shall be entitled, but not required, to accompany Contractor for such testing and inspections.
- 9.3 Inspection upon Arrival, During Installation, and After Installation. Upon arrival of any materials, supplies, systems, equipment, fixtures, furnishings, and other items at the Project site, whether procured by Contractor, Owner, or Professional Services Consultant, Contractor shall inspect such items for damage, for compliance with the Contract Documents and for compliance with all shipping documents and shall arrange for the proper storage and security of such items. Contractor shall also provide for and monitor the proper and timely installation of all such items on the Project. After such items are

installed or made ready for use, Contractor shall again inspect all such items for damage and shall arrange for and monitor testing of all such items for compliance with the Contract Documents and readiness for use on the Project.

- 9.4 Punch Lists. Professional Services Consultant shall prepare punch lists and other itemizations of defective, deficient, or incomplete Work to be completed by the Contractor.
- 9.5 Contractor's Observation of Testing and Start-Up. Contractor shall schedule (and notify Professional Services Consultant and Owner's Representative of such schedule), coordinate, and observe the testing and start-up of all utilities, systems, fixtures, and other equipment and shall report the results of same to Professional Services Consultant and Owner's Representative in writing.
- 9.6 Transfer of the Work and the Project to Owner. Contractor shall provide assistance in the transfer of the completed Project, and all portions thereof, to Owner. Such assistance shall include procuring certificates of ownership and warranties, keys to the Project, operations and maintenance manuals and instructions, supplies, start-up of Project systems, transferring Project security, arranging for training Owner in the operation and maintenance of all systems and components of the Project, and such other matters as may relate to Owner's initial occupation, possession, and use of the Project or any part thereof.
- 9.7 Certification at Final Completion. When Contractor believes that Final Completion of the entire Project has been achieved, it shall notify Professional Services Consultant and Owner's Representative in writing and request an inspection for certification of Final Completion of the Project. Contractor's request for final inspection shall constitute a representation by Contractor to Owner that Contractor has made all inspections of the Work as provided in the contract and that all the Work has been completed in strict compliance with the Contract Documents and that the quality of the Work meets or exceeds the requirements of the Contract Documents.

10 ARTICLE 10 - PROJECT DOCUMENTATION

- 10.1 Basic Project Documentation. Contractor shall submit the Daily Log to the Owner on a daily basis and may be required to submit the Daily Log in an electronic format.
- 10.3 Monthly Reports. Each month Contractor shall prepare and submit to Owner's Representative and Professional Services Consultant a written report detailing the progress of the Project (the "Monthly Report"). The Monthly Report shall contain Contractor's estimate of percentage of completion of the Project and each element thereof, identify any and all delays to the Project and the cause and extent thereof and describe the remedial measures being taken to overcome such delays, identify any defective or deficient Work installed during the preceding month and describe the remedial measures

being taken to correct the defective or deficient Work, identify any outstanding requests for information or clarification, requests for interpretation, change order requests, questions, or other matters requiring the response of either Owner, Contractor, Professional Services Consultant, or a Subcontractor and shall include any and all other information required to fully inform Owner and Professional Services Consultant of the status of the Project and the performance of Contractor, Professional Services Consultant, and Subcontractors.

- 10.4 Review and Assignment of Warranties. Contractor shall obtain and shall transmit to Owner's Representative all special products, system, equipment or material warranties required by the Contract Documents and the Subcontracts. Contractor shall review all such warranties to confirm that the warranties are in compliance with the requirements of the Contract Documents and Subcontracts. Contractor hereby assigns to Owner all of Contractor's rights and interest in and to any and all warranties, including Uniform Commercial Code warranties, that Contractor receives or is entitled to receive from any Subcontractor or supplier in connection with the Project.
- 10.5 Operations and Maintenance Documentation. Contractor shall obtain and transmit to Owner's Representative all documentation required by the Contract Documents regarding the operation and recommended maintenance programs relating to the various elements of the Project. Such documentation shall be furnished to Owner's Representative in uniform three-ring binders labeled with the Project name and number.
- 10.6 Review and Approval of As-Built Drawings. Contractor shall provide as-built drawings and shall confirm to Owner that such drawings are adequate and complete and in compliance with the requirements of the Contract Documents.
- 10.7 Availability of Project-Related Records to Owner. All records relating directly or indirectly to the Project which are in the possession or control of Contractor shall be made available to Owner, its designee, and any governmental authority for audit, inspection, and copying upon request of Owner's Representative. Such records include, without limitation: all drawings, specifications, Submittals, subcontractor bids, the Daily Log, correspondence, the Request Log, the Submittal Log, minutes, memoranda, tape or videotape recordings, or other writings or things which document the Project, its design, and its construction.
- 10.8 Maintenance of Project-Related Records. Contractor shall maintain and protect all Project-related records, other than those required to be returned to Owner, for no less than five (5) years after Final Completion of the Project and for any longer period of time as may be required by law or good construction practice.
- 10.9 Project Videotapes and Photographs. If at any time requested by Owner's Representative, Contractor shall, at Owner's expense, record periodic narrated videotapes or take photographs depicting progress of the Work. Any specific safety or environmental incidents shall be videotaped at the time of the incident without waiting for Owner authorization. All videotapes and photographs shall be submitted to Owner's Representative on a weekly basis.

11 ARTICLE 11 - OWNER'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

- 11.1 Provide Project Information. Owner shall make available to Contractor / Assigned Subcontractor adequate information regarding Owner's requirements for the Project including adequate complete sets of the Construction Documents. The Contractor / Assigned Subcontractor is responsible for the purchase of these Construction Documents if the desired number of sets exceeds those available from those returned by unsuccessful bidders.
- 11.2 Review of Documents. Owner shall review any documents submitted by Contractor requiring Owner's decision and shall render any required decisions pertaining thereto.

- 11.3 Access to the Site and the Work. Owner shall provide Contractor access to the site and to the Work as necessary for Contractor to perform the requirements of the Contract Documents.
- 11.4 Timely Performance. Owner shall perform its duties and obligations set forth in this contract in a timely fashion so as to permit the orderly progress of Contractor's Work.
- 11.5 Owner's Reviews, Inspections, Approvals, and Payments. Owner's review, inspection, or approval of any Work, or any documents prepared or submitted by Contractor shall be solely for the purpose of determining whether such Work and such documents are generally consistent with Owner's construction program and requirements, and Contractor understands that Owner is relying on Contractor to assure compliance with the Contract Documents. No review, inspection, or approval by Owner of such Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract Documents or for the accuracy, adequacy, fitness, suitability, or coordination of its Work. Approval by any governmental or other regulatory agency or other governing body of any Work, design document, or Subcontract shall not relieve Contractor of responsibility for the performance of its obligations under the Contract Documents. Payment by Owner shall not constitute a waiver of any of Owner's rights under the Contract Documents or at law, and Contractor accepts the risk that defects in the Work, if any, may not be discovered until after payment, including Final Payment, is made by Owner.
- 11.6 Non-Waiver. Owner's failure to exercise any right or remedy hereunder or to require compliance with any obligation of Contractor under the Contract Documents shall not constitute a waiver or an estoppel of the right to exercise such right or remedy or to insist on such compliance at any other time or on any other occasion.

12 ARTICLE 12 - PAYMENT

- 12.1 Contract Sum. The Contract Sum is stated in the Agreement and, including authorized adjustments and any direct payments to any Assigned Subcontractors, is the total amount payable by the Owner to, and on behalf of, the Contractor for performance of the Work under the Contract Documents.
- 12.2 Contractor Retainage. Except as otherwise approved by Owner in writing, Owner shall retain ten percent (10%) of the amounts earned under this contract ("Contract Retainage"), and Owner shall not be responsible for releasing, paying or compensating Contractor any amount on account of such Contract Retainage until such time as specified herein for release of Contract Retainage.
- 12.3 Schedule of Values. Contractor shall prepare and present to the Professional Services Consultant within fifteen (15) days after commencement of the Work, a proposed schedule of values. Contractor's schedule of values shall be prepared in such form, with such detail, and supported by such data as the Professional Services Consultant or the Owner's Representative may require to substantiate its accuracy. Contractor shall not front-end load its schedule of values by imbalancing it or by increasing any element thereof in excess of its anticipated actual value, and such acts shall constitute a material breach of this contract. Contractor's proposed schedule of values shall be used in determining the amounts payable to Contractor and the Assigned Subcontractors hereunder, but only after it has been acknowledged in writing by the Professional Services Consultant and the Owner's Representative. Schedule of Values and Subcontractors listed will only be accepted if the documentation required by applicable law, including the Illinois Procurement Code (30 ILCS 500/1 et seq.) has been provided to the Owner. See Section 6.4 for the requirements.
- 12.4 Schedule of Values Shall Identify Subcontractors. The Contractor's schedule of values shall identify all Subcontractors, vendors, and suppliers with whom a Subcontract or purchase order in excess of \$1,000 is executed or pending in connection with this contract.

- 12.5 Reporting Diversity Participation. The Contractor's schedule of values shall separately identify all of the proposed Subcontractors, vendors, or suppliers that are certified by the Illinois Commission on Equity and Inclusion (CEI) as a BEP/VBP certified vendor. This information is requested only for the Owner's use in monitoring the level of diversity participation on its projects.
- 12.6 Applications for Payment. At least twenty five (25) days before the date established for each payment, the Contractor shall submit to the Professional Services Consultant an itemized Application for Payment for operations completed in accordance with the Contractor's acknowledged schedule of values. Such application shall be notarized and supported by such data substantiating the Contractor's right to payment as the Owner or Professional Services Consultant may require, and shall reflect retainage as provided in the Contract Documents.
- 12.6.A Such applications shall not include requests for payment for portions of the Work for which the Contractor does not intend to pay to a Subcontractor or material supplier, unless such Work has been performed by others whom the Contractor intends to pay.
- 12.6.B Unless otherwise provided in the Contract Documents, payments shall be made on account of materials and equipment delivered and suitably stored at the site for subsequent incorporation in the Work. If approved in writing in advance by the Owner, payment may be made for materials and equipment suitably stored off the site at a location agreed upon in writing. Payment for materials and equipment stored on or off the site shall be conditioned upon compliance by the Contractor with procedures satisfactory to the Owner to protect the Owner's interest in materials and equipment, and shall include the costs of applicable insurance, storage and transportation to the site for such materials and equipment stored off the site. Whenever payment for furniture, fixtures or equipment is included, the Owner's furniture, fixtures and equipment inventory form (FIF) shall be completed by the Contractor and submitted with that payment. The FIF shall be itemized to the component level as described on the FIF.
- 12.6.C The Contractor warrants that upon submittal of an Application for Payment all Work for which Certificates for Payment have been issued and payments received from the Owner shall be free and clear of liens, claims, security interests or encumbrances in favor of the Contractor, Subcontractors, material suppliers, or other persons or entities making a claim by reason of having provided labor, materials and equipment relating to the Work.
- 12.6.D Lien Waivers
- 12.6.D.1 Partial lien waivers are not required with the first payment application if payment is less than fifty percent (50%) of the contract amount. Each subsequent payment application shall be accompanied by the Contractor's partial waiver, and by partial waivers from subcontractor(s), vendor(s), and suppliers who were included in the immediately preceding payment application, to the extent of that payment, as reflects on the payment application form.
- 12.6.D.2 Partial lien waivers from the Contractor and all subcontractor(s), vendor(s) and suppliers shall accompany the first payment application when the amount of payment exceeds fifty percent (50%) of the total contract amount. Lien waivers are to be in the amount reflected on the payment application form.
- 12.6.D.3 The Contractor's request for final payment shall include final lien waivers, on Owner forms, from all subcontractor(s), vendor(s), and

suppliers in the full amount of their contracts as reflected on the payment application form. The Contractor shall also furnish its own final waiver of lien as reflected on the payment application form

- 12.7 Certificates for Payment. The Professional Services Consultant will, within seven (7) days after receipt of the Contractor's Application for Payment, either issue to the Owner a Certificate for Payment, with a copy to the Contractor, for such amount as the Professional Services Consultant determines is properly due, or notify the Contractor and Owner in writing of the Professional Services Consultant's reasons for withholding certification in whole or in part.
- 12.8 Decisions to Withhold Certification. The Professional Services Consultant may withhold a Certificate for Payment in whole or in part, to the extent reasonably necessary to protect the Owner. If the Professional Services Consultant is unable to certify payment in the amount of the Application, the Professional Services Consultant will notify the Contractor and Owner. If the Contractor and Professional Services Consultant cannot agree on a revised amount, the Professional Services Consultant will promptly issue a Certificate for Payment for the amount which the Professional Services Consultant is able to certify. The Professional Services Consultant may withhold a Certificate for Payment or, because of subsequently discovered evidence, may nullify the whole or a part of a Certificate for Payment previously issued, to such extent as may be necessary in the Professional Services Consultant's opinion to protect the Owner from loss for which the Contractor is responsible, because of:
- 12.8.A defective Work not remedied;
 - 12.8.B third party claims filed or reasonable evidence indicating probable filing of such claims unless security acceptable to the Owner is provided by the Contractor;
 - 12.8.C failure of the Contractor to make payments properly to Subcontractors or for labor, materials or equipment;
 - 12.8.D reasonable evidence that the Work cannot be completed for the unpaid balance of the Contract Sum;
 - 12.8.E damage to the Owner or another contractor;
 - 12.8.F reasonable evidence that the Work will not be completed within the Contract Time, and that the unpaid balance will not be adequate to cover applicable damages for the anticipated delay; or
 - 12.8.G persistent failure to carry out the Work in accordance with the Contract Documents.
- 12.9 Certification of Previously Withheld Amounts. When the above reasons for withholding certification are removed, certification will be made for amounts previously withheld.
- 12.10 Partial Payments. The Owner shall make payments for Work performed under the contract as follows:
- 12.10.A On or about the last day of each month, Owner shall pay to the Contractor that portion of the Contract Sum for which the Professional Services Consultant has issued a Certificate for Payment during such month
 - 12.10.B Within fifteen (15) days after receipt of any partial payment, the Contractor shall submit to the Professional Services Consultant an affidavit on the Monthly Affidavit Form bound herewith certifying that all debts incurred for Work for which Contractor has been paid have themselves been paid.
 - 12.10.C After the first partial payment, the proper submission by Contractor of such monthly affidavits shall be a condition precedent to future payments.

- 12.10.D Neither the Owner nor Professional Services Consultant shall have an obligation to pay or to see to the payment of money to a Subcontractor except as may otherwise be required by law.
- 12.10.E A Certificate for Payment, a partial or final payment, or partial or entire use or occupancy of the Project by the Owner shall not constitute acceptance of Work not in accordance with the Contract Documents.
- 12.11 Failure of Payment. If within sixty (60) days after the date established in subparagraph 12.10 for payment and through no fault of the Contractor, the Owner does not pay the Contractor the amount certified by the Professional Services Consultant or, if no amount has been certified by the Professional Services Consultant, the amount properly owed to the Contractor then the Contractor may, following the receipt by Owner and Professional Services Consultant of sixty (60) additional days' written notice of its intent to do so, suspend the Work until such payment has been received. In the event of such a suspension by the Contractor, the Contractor shall be entitled to (1) its costs of suspension as provided by, and subject to the provisions of paragraph 20.4, and (2) an extension of time as provided by, and subject to the provisions of paragraph 20.5.
- 12.12 Substantial Completion.
- 12.12.A When the Contractor considers that the Work, or a portion thereof which the Owner agrees to accept separately, is substantially complete, the Contractor shall notify the Professional Services Consultant and the Owner in writing and request an inspection for certification of Substantial Completion. Simultaneously, the Contractor shall prepare and submit to the Professional Services Consultant and Owner a comprehensive list of items to be completed or corrected prior to final payment. Failure to include an item on such list does not alter the responsibility of the Contractor to complete all Work in accordance with the Contract Documents.
- 12.12.B Upon receipt of the Contractor's list, the Professional Services Consultant and Owner will make an inspection to determine whether the Work or designated portion thereof is substantially complete. If the Professional Services Consultant's and Owner's inspection discloses any item, whether or not included on the Contractor's list, which is not sufficiently complete in accordance with the Contract Documents so that the Owner can occupy or utilize the Work or designated portion thereof for its intended use, the Contractor shall, before issuance of the Certificate of Substantial Completion, complete or correct such item upon notification by the Professional Services Consultant. In such case, the Contractor shall then submit a request for another inspection by the Professional Services Consultant and Owner to determine Substantial Completion and Contractor shall bear all costs of same.
- 12.12.C When the Work or designated portion thereof is substantially complete, the Professional Services Consultant will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion, and shall establish transfer of responsibility from Contractor to Owner for security, maintenance, heat, utilities, damage to the Work and insurance except for Work items specifically excluded from the substantial completion punchlist. Warranties required by the Contract Documents shall commence on the date of Substantial Completion of the Work or designated portion thereof unless otherwise provided in the Certificate of Substantial Completion.
- 12.12.D The Certificate of Substantial Completion shall be submitted to the Owner and Contractor for their written acceptance of responsibilities assigned to them in such Certificate. Upon such acceptance and consent of surety, if any, the

Owner shall make payment to the Contractor as provided in subparagraph 12.12.E.

12.12.E Payment at Substantial Completion. Provided that all conditions precedent have been satisfied, within thirty (30) days after written acceptance by Owner and Contractor as provided in subparagraph 12.12.D, Owner shall pay Contractor all sums due including Contract Retainage, less any amounts attributable to liquidated damages, and less two hundred percent (200%) of the reasonable cost for completing all incomplete Work, correcting and bringing into conformance all defective and nonconforming Work, and handling all unsettled claims. As a further condition precedent to such payment, however, Contractor shall deliver to Owner's Representative the final complete set of as-built drawings in the form of marked-up blue-line drawings, all required releases of claim, all certificates of occupancy or similar documents required for the occupation and use of the Project for its intended purposes, all required warranties and all Project Documentation as described in Article 10 herein.

12.13 Partial Occupancy or Use. The Owner may occupy or use any completed or partially completed portion of the Work at any stage when such portion is designated by separate agreement with the Contractor, provided such occupancy or use is consented to by the insurer and authorized by public authorities having jurisdiction over the Work. Such partial occupancy or use may commence whether or not the portion is substantially complete, provided the Owner and Contractor have accepted in writing the responsibilities assigned to each of them for payments, retainage, if any, security, maintenance, heat, utilities, damage to the Work and insurance, and have agreed in writing concerning the period for correction of the Work and commencement of warranties required by the Contract Documents. When the Contractor considers a portion substantially complete, the Contractor shall prepare and submit a list to the Professional Services Consultant as provided under subparagraph 12.12.A. Consent of the Contractor to partial occupancy or use shall not be unreasonably withheld. The stage of the progress of the Work shall be determined by written agreement between the Owner and Contractor or, if no agreement is reached, by decision of the Professional Services Consultant. Immediately prior to such partial occupancy or use, the Owner, Contractor and Professional Services Consultant shall jointly inspect the area to be occupied or portion of the Work to be used in order to determine and record the condition of the Work.

12.14 Final Completion.

12.14.A Written Notice for Final Inspection, Acceptance, and Payment. Upon receipt of written notice that the Work is ready for final inspection and acceptance and upon receipt of a final Application for Payment, the Professional Services Consultant will promptly make such inspection and, when the Professional Services Consultant finds the Work acceptable under the Contract documents and the Contract fully performed, the Professional Services Consultant will promptly issue a final Certificate for Payment.

12.14.B Payment at Final Completion. Provided that all conditions precedent have been satisfied, within thirty (30) days after execution of the final Certificate for Payment, Owner shall pay Contractor all unpaid sums due Contractor under this Agreement ("Final Payment"), less any amount properly withheld pursuant to this contract. Contractor's acceptance of Final Payment shall constitute an unconditional waiver and release of all claims by Contractor for additional compensation beyond that provided in the Final Payment. Final Payment by Owner shall not, however, constitute a waiver by Owner of its rights or claims arising from Contractor's failure to perform the requirements of the Contract Documents

- 12.15 Withholding of Payment. Any provision of the Contract Documents notwithstanding, Owner shall not be obligated to make a payment or payments to Contractor otherwise due, if, and for so long as, any one or more of the following conditions exist
- 12.15.A Contractor's Application for Payment is not in the form or supported by the documentation required by this Contract;
 - 12.15.B Contractor is in default of any of its obligations under the Contract Documents;
 - 12.15.C Any part of such payment is attributable to Work which is defective or not strictly conforming with the requirements of the Contract Documents; provided, however, that payment shall be made as to the part thereof attributable to Work which is rendered or performed in accordance with the Contract Documents and is not defective, subject to other provisions hereof;
 - 12.15.D Contractor has improperly failed to make payments to its Subcontractors, consultants, employees, or others performing Work in connection with the Project or any person has filed a claim that Contractor has failed to make payments due to such person;
 - 12.15.E Any person has asserted a claim against Owner in whole or in part on account of alleged acts or omissions of Contractor;
 - 12.15.F Evidence that the balance of the Work cannot be completed in accordance with the Contract Documents for the unpaid balance of the Contract Sum;
 - 12.15.G Failure or refusal by Contractor to perform the Work in accordance with the Contract Documents;
 - 12.15.H Damage to Owner or to a third-party to whom Owner is, or may be, liable; or
 - 12.15.I Any situation or condition exists which, as set forth elsewhere herein or in the Contract Documents, justifies the withholding of payments.

In the event that any of the foregoing conditions exist, Owner shall be entitled to withhold from any sum then due or thereafter to become due, including from retained sums, an amount sufficient in the sole judgment of Owner's Representative to satisfy, discharge, and defend against such claims and to make good any losses, prospective losses, costs, attorney's fees, and other expenses which may result from the existence of such conditions.

- 12.16 Disputed Payment Applications. In the event Owner's Representative or the Professional Services Consultant disagrees with or questions all or any portion of any Application for Payment, the amount due to Contractor, or the sufficiency of the information and documentation submitted by Contractor, Owner's Representative or the Professional Services Consultant shall notify Contractor in writing and Owner shall pay the undisputed parts of such Application for Payment. If Owner's Representative and Contractor are able to agree on the amount due under the disputed part of any Application for Payment, payment will be made to Contractor within ten (10) days after receipt of a new Application for Payment representing the agreed amount. Pending resolution of any disputed Application for Payment, or other disputes, Contractor shall continue its performance hereunder without interruption.
- 12.17 Non-Waiver of Claims for Defective Work. Neither entrance, inspection nor use of the Project by Owner, Professional Services Consultant, or their representatives shall be construed as an acceptance of defective or nonconforming Work nor shall such entrance, inspection or use release Contractor from any of its obligations under the Contract Documents.

13 ARTICLE 13 - CHANGE ORDERS

- 13.1 Authority to Order Changes. Owner may by written Change Order, and without affecting the validity or enforceability of this contract, direct changes in the Work within the general scope of the Contract Documents, including changes, additions, deletions, modifications, and revisions thereto. Owner may, at its sole discretion, initially direct changes in the Work by a Field Directive or Emergency Work Authorization, as defined in this Article and the Contract Documents. Contractor shall promptly proceed, and cause all Subcontractors to proceed, with the performance of the Work in accordance with Owner's direction, and failure to agree on the terms of a Change Order shall not excuse Contractor from continued performance of the Work in an expeditious fashion or from proceeding with any directed change.
- 13.2 Adjustments to Contract Sum and Contract Time Only by Change Order. Changes in the Contract Sum and extensions of time for the performance of this contract may only be made by a Change Order issued in accordance with the terms of this Article. Owner shall not be responsible for any change in the Work involving extra cost unless approval in writing is furnished by Owner before such Work is begun. Professional Services Consultant does not have authority to order changes in the Work that involves changes in cost or time.
- 13.3 Adjustments to the Contract Sum. If there is a change in the Work required of Contractor under the Contract Documents, which change increases Contractor's cost of performance, or if Contractor submits a claim for additional compensation pursuant to paragraph 14.2, then, subject to Owner's approval of Contractor's claim, the Contract Sum shall be adjusted by a Change Order; provided, however, that no upward adjustment shall be made if the change in the Work, or the basis of the claim for additional compensation, is caused by the fault, in whole or in part, of Contractor, a Subcontractor, or anyone for whom they are, or may be, responsible. If a change in the Work reduces Contractor's cost of performance, then the Contract Sum shall be decreased accordingly. The amount of any adjustment to the Contract Sum shall be determined by agreement between Owner and Contractor. In the absence of such agreement, the Contractor, upon receipt of a written order from the Owner, shall nevertheless promptly proceed to implement the change. In such case, the Contractor shall keep and present, in such form as the Professional Services Consultant may direct, a correct account of the resulting job costs or savings, or both, with supporting vouchers. The Professional Services Consultant, upon determination of the costs or savings from such account and from any investigation made by it and, after applying the percentages for overhead and profit provided in the Agreement, shall certify the adjusted Contract Sum. Such certification shall be binding upon both parties.
- For Lump Sum Change Orders, the Contractor will submit a properly itemized Lump Sum Change Order Proposal covering the additional work and/or the work to be deleted. This proposal will be itemized for the various components of work and segregated by labor, material, and equipment in a detailed format satisfactory to Owner. The Owner will require itemized change orders on all change order proposals related to work to be performed by the Contractor and all Subcontractors. Details to be submitted will include detailed line item estimates showing detailed materials quantity take-offs, material prices by item and related labor hour pricing information and extensions (by line item or by drawing as applicable).
- 13.4 Payment. Requests for payment for performance of Work pursuant to a Change Order shall be made in accordance with, and payment shall be subject to, the provisions of Article 12.
- 13.5 Change Orders Final. The execution of a Change Order by Contractor shall constitute conclusive evidence of Contractor's agreement to the ordered changes in the Work, the Contract Documents as thus amended, the Contract Sum and the Substantial Completion Date. Contractor, by executing the Change Order, waives and forever releases any claim against Owner for additional time or compensation for matters in any manner relating to, arising out of or resulting from the executed Change Order. Any additional Work performed

by Contractor or Subcontractors without prior written authorization by Owner shall be performed at the sole risk and expense of Contractor.

- 13.6 Field Directives. In the event of unforeseen circumstances that are beyond the Owner's control as defined in Article 1, Section 1.6, Owner may issue a Field Directive to commence Work. Upon completion of the Work performed under the Field Directive, a Change Order shall be generated in accordance with Article 13 within.
- 13.7 Emergency Work Authorization. In the event of conditions that require immediate action as defined in Article 1, Section 1.5, Owner may issue an Emergency Work Authorization to commence Work. Upon completion of the Work performed under the Emergency Work Authorization, a Change Order shall be generated in accordance with Article 13 herein.

14 ARTICLE 14 - CLAIMS BY CONTRACTOR

- 14.1 Generally. All claims against Owner shall be initiated by a written notice submitted by Contractor to Owner's Representative and to the Professional Services Consultant. Such notice shall be submitted to, and received by, Owner's Representative and the Professional Services Consultant not later than seven (7) days after the occurrence of the event, or commencement of the condition, giving rise to the claim. Promptly thereafter, Contractor shall submit its documented claim to Owner's Representative and to the Professional Services Consultant and shall make available to both all pertinent information requested by either relating to such claim. Contractor and Owner shall continue their performance under this Agreement regardless of the existence of any claims submitted by Contractor.
- 14.2 Claims for Additional Compensation. In the event Contractor seeks to make a claim for an increase in the Contract Sum, then as a condition precedent to any liability of Owner therefor, Contractor shall strictly comply with all of the requirements of paragraph 14.1 and such claim shall be made by Contractor before proceeding to execute any additional or changed work. Failure to satisfy this condition precedent shall constitute a waiver by Contractor of any claim for additional compensation. Any liability of Owner for additional costs to Contractor shall be limited to actual and reasonable direct costs incurred by Contractor and shall in no event include indirect costs or consequential damages of Contractor or others. Absent a Change Order, Owner shall not be liable to Contractor for claims of third parties, including Subcontractors, unless and until liability of the Contractor has been established therefor in a court of competent jurisdiction. No change in the Contract Sum shall be made except by Change Order issued in accordance with the terms of this contract.
- 14.3 Claims for Extensions of Time. In the event the Contractor should be delayed in performing any task which at the time of the delay is then critical, or which during the delay becomes critical, as the sole result of any act or omission by the Owner or someone acting in the Owner's behalf, or by Owner-authorized Change Orders, unusually bad weather not reasonably anticipatable, or Acts of God, the Substantial Completion Date, or as applicable, the date for Final Completion, shall be appropriately adjusted by the Owner upon the written claim of the Contractor to the Owner and the Professional Services Consultant. A task is critical within the meaning of this paragraph 14.3 if, and only if, said task is on the critical path of the Project schedule so that a delay in performing such task will delay the ultimate completion of the Project. As a condition precedent thereto, any claim for an extension of time by the Contractor shall strictly comply with the requirements of paragraph 14.1 above. If the Contractor fails to make such claim as required in this paragraph 14.3, any claim for an extension of time shall be waived.
- 14.4 Claims for Concealed or Unknown Conditions. In the event the Contractor discovers previously concealed and unknown site conditions which are materially at variance from those typically and ordinarily encountered in the general geographical location of the Project, the Contract Sum shall be modified, either upward or downward, upon the written claim made by either party within seven (7) calendar days after the first appearance to such

party of the circumstances. As a condition precedent to the Owner having any liability to the Contractor due to concealed and unknown conditions, the Contractor must give the Owner and the Professional Services Consultant written notice of, and an opportunity to observe such condition prior to disturbing it. The failure by the Contractor to give the written notice and make the claim as provided by this paragraph 14.4 shall constitute a waiver by the Contractor of any rights arising out of or relating to such concealed and unknown condition.

- 14.5 No Damages for Delay. The Owner shall not be responsible for damages to any extent whatever to the Contractor for delays in furnishing those materials or performing those acts required under the terms hereof to be furnished or performed by the Owner, Owner's employees, agents or assigns, if such delays are the result of causes beyond the Owner's reasonable control or power to avoid.

15 ARTICLE 15 - PAYMENT AND PERFORMANCE BONDS

Contractor shall provide separate payment and performance bonds on the forms provided by Owner and issued by a surety, or sureties, acceptable to Owner. The surety companies providing coverage must have a policyholder's rating not lower than "A-" and a financial rating not lower than "VI" in the current edition of Best's Key Rating Guide for property/casualty insurance companies. Each of the bonds shall include a penal sum in the amount of one hundred percent (100%) of the Contract Sum. Contractor's surety(ies) shall be deemed to have waived notice of, and to have consented to, changes to the Contract Documents, including changes in: (a) the time for performing the Work and payment of compensation to Contractor hereunder; (b) the sums payable under this contract to Assigned Subcontractors, if applicable; and (c) the Work to be performed. The Contract Documents shall be incorporated by reference into each of the bonds.

16 ARTICLE 16 - CONTRACTOR'S PERSONNEL AND SUBCONTRACTORS

- 16.1 Personnel. Contractor shall assign only qualified personnel to perform the Work.
- 16.2 Removal of Personnel and Subcontractors. If, at any time during the course of the Project, Owner's Representative reasonably determines that the performance of any member of Contractor's staff or any of Contractor's Subcontractors, or consultants working on the Project is unsatisfactory, Owner's Representative may, in writing, require Contractor to remove such staff member or terminate such Subcontractor or consultant from the Project immediately and replace the staff member, Subcontractor or consultant at no cost to Owner, including those resulting from delay or inefficiency the change may cause.
- 16.3 Employment Taxes. Contractor shall be responsible for payment of all unemployment compensation, social security, and other similar taxes and benefits covering its employees.

17 ARTICLE 17 - OWNERSHIP OF DOCUMENTS

All Contract Documents, as well as information and items provided by Owner to Contractor to facilitate Contractor's performance hereunder, shall remain the exclusive property of Owner, and all such documents, information, and items, including all copies thereof, shall be returned to Owner's Representative upon Final Completion and as a condition precedent to Final Payment, provided that Contractor may retain one copy of same for record purposes only.

18 ARTICLE 18 - INDEMNITY AND LIABILITY INSURANCE

- 18.1 Indemnification. - 21.4.C If it appears that the Contractor would not have profited, would have sustained a loss, or that its profit would have been diminished if the entire contract would have been completed, no profit shall be allowed or included and the amount of compensation shall be reduced to reflect the anticipated rate of loss, if any, notwithstanding the provisions of subparagraphs A., B., C., and D. of this paragraph 21.4.
- 21.4.D The total sum to be paid the Contractor under this paragraph 21.4 shall not exceed the Contract Sum, as properly adjusted, less those sums paid or to be paid directly by Owner to Assigned Subcontractors, reduced by the amounts of payments otherwise made, and shall in no event include duplication of payment.
- 21.4.E In no event shall Contractor be entitled to recover from Owner, on its own account or on behalf of a Subcontractor, lost profits or other consequential damages, whether its own or those of a Subcontractor, on account of a termination for convenience or an erroneous termination for cause, as described below.
- 21.5 Termination for Cause. If Contractor refuses or fails to perform under this contract in a timely manner, supply enough properly skilled supervisory personnel, labor or proper equipment or materials, make prompt payment to its Subcontractors, suppliers, employees, or consultants, or comply with Applicable Laws, or if Contractor is otherwise guilty of a material breach of this contract or any warranty made herein, then Owner may, by written notice to Contractor, and without prejudice to any other right or remedy, terminate the employment of Contractor, in whole or in part, and take possession of the Project site, the Contract Documents, Subcontracts, Project Documentation in the possession of Contractor, and all equipment and materials at the site.
- 21.6 Erroneous Termination for Cause. In the event the employment of Contractor is terminated by Owner for cause and it is subsequently determined by a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under paragraph 21.1 and the provisions of paragraph 21.4 regarding compensation shall apply.
- 21.7 Completion by Owner and Survival of Obligations. Following any termination, whether for convenience or for cause and whether in whole or in part, Owner may complete the terminated portion of the Work by whatever means Owner deems most expedient. Contractor's obligations and all provisions of this contract shall continue in full force and effect as to all Work performed prior to the effective date of the termination and as to that portion of the Work not affected by the termination.
- 21.8 Termination by Contractor. If the Work or this contract is suspended by Owner or by governmental authority in its entirety for a period of one hundred and twenty (120) consecutive days or more through no fault of Contractor or the Subcontractors, or if Owner fails to perform its material obligations to the Contractor for a period of sixty (60) days after receipt of written notification from Contractor of its intent to terminate hereunder, then Contractor may, upon seven (7) days written notice to Owner, terminate this contract. In such event, the Contractor shall be entitled to recover from the Owner as though the Owner had terminated the Contractor's performance for convenience pursuant to paragraph 21.1 above.

22 ARTICLE 22 - LABOR AND EMPLOYMENT LAWS AND REGULATIONS

- 22.1 Illinois Statutes. The Contractor shall comply with all laws, statutes, regulations, ordinances, rulings or enactments of any governmental authority that are applicable to the work or which in any way pertain to the project, including, without limiting the foregoing thereto, the following Illinois statutes:

22.1.A The Prevailing Wage Act.

Pursuant to the Prevailing Wage Act, Contractor shall pay a wage of no less than the general prevailing hourly rate as paid for work of a similar character in the locality in which the work is performed, to all laborers, workers and mechanics, pursuant to definitions, guidelines and procedures set forth in 820 ILCS 130/0.01 et. seq. If the Illinois Department of Labor revises the prevailing rate of hourly wages to be paid by the Owner, the revised rate shall apply to this contract. The prevailing rate of hourly wages is revised by the Illinois Department of Labor and is available on the Illinois Department of Labor's official website.

The Contractor shall submit monthly to Owner, via the Owner's electronic project management system, a certified copy of the records required under section 130/5(a)(1) of the Act. The certified payroll shall include records of all laborers, mechanics, and other workers employed by the Contractor, including assigned subcontractors, for services performed. The records shall include each worker's name, address, telephone number when available, social security number, classification or classifications, hourly wages paid in each pay period, number of hours worked each day, and the starting and ending times of each work day. The certified payroll shall be accompanied by a statement signed by the Contractor and statements signed by each subcontractor where appropriate which aver that: (1) such records are true and accurate, (2) the hourly rate paid to each worker is not less than the general prevailing rate of hourly wages required under the Act; and (3) the Contractor acknowledges that filing a certified payroll that he or she knows to be false is a Class B misdemeanor.

- 22.2 Compliance. The above explanations of these Acts are condensed and not intended to be a complete detailed account of all duties and obligations imposed thereby, and hence by this article of The General Conditions, upon the Contractor. The Contractor shall comply with all of the provisions of the above cited Acts, whether herein set forth or not, as well as with the provisions of all other applicable legislation and regulations issued thereunder.

23 ARTICLE 23 - RESERVED

24 ARTICLE 24 - ENVIRONMENTAL ISSUES

- 24.1 Environmental Licenses, Certifications, and Permits. Contractor covenants and agrees that during the term of this contract and any extensions or renewals thereof, all of its employees, agents, representatives, and Subcontractors, if any, performing Work will have the requisite skills, licenses, certifications, training, permits and the like mandated by all applicable federal, state and local governing authorities with jurisdiction over environmental matters. Contractor agrees to provide to Owner's Representative evidence of compliance with the requirements of this paragraph upon demand.
- 24.2 Environmental Laws. Contractor, its Subcontractors, representatives, employees, and agents shall comply with all federal, state, and local laws, rules, and ordinances relating to environmental protection governing the Work.
- 24.3 Termination. Contractor agrees that a breach of any of the terms, conditions, and obligations of this Article would be detrimental to Owner, a material breach of this contract and grounds for Owner's termination of the contract.
- 24.4 Application with Other Provisions. The provisions of this Article 24 shall operate in addition to, and not in limitation of, any other obligations contained in the Contract Documents.

25 ARTICLE 25 - MISCELLANEOUS PROVISIONS

- 25.1 Successors and Assigns. Subject to the provisions of the Agreement, Owner and Contractor, respectively, bind themselves, their successors, assigns and legal representatives to the other party and to the successors, assigns and legal representatives of such other party with respect to all terms and conditions of this Contract.

- 25.2 Third Party Beneficiaries. Nothing contained herein shall create a contractual relationship with, or any rights in favor of, any third party, including any Subcontractor.
- 25.3 Waiver. No waiver by Owner of any one or more defaults by Contractor in the performance of the provisions of this contract shall be construed as a waiver of any other defaults, whether of a like kind or different nature.
- 25.4 Entire Agreement/Amendments in Writing. This contract represents the entire agreement between Owner and Contractor and supersedes all prior communications, negotiations, representations, or agreements, either written or oral. Subject only to the provisions of Article 13, this contract may be amended only by written instrument signed by both Owner and Contractor.
- 25.5 Governing Law. This Agreement shall be construed, interpreted, and enforced in accordance with the laws of the State of Illinois.
- 25.6 "Including". The terms "including", "includes", and their derivatives are not intended as terms of limitation, and shall be deemed in each instance to be followed by the phrase "without limitation."
- 25.7 Exhibits. All exhibits annexed hereto are incorporated by reference and made a part of the contract.
- 25.8 Headings. The headings used are merely for convenience and shall have no other force, effect or purpose.
- 25.9 Severability. In the event any provision of this contract shall be held invalid or unenforceable by any court of competent jurisdiction or other competent tribunal or rendered invalid by any legislative or regulatory enactment, the remaining provisions shall remain in full force and effect, and such holding or enactment shall not invalidate or render unenforceable any other provision hereof.
- 25.10 Taxes. The Contractor shall pay all current and applicable city, county, State and Federal taxes, licenses, assessments, including Federal Excise Taxes, due on his work, including without thereby limiting the foregoing, those required by the Federal Insurance Contributions Act and the Federal and State Unemployment Tax Acts.

The Contractor shall accept exclusive liability for, and pay, all taxes, license fees, assessments, and excises, levied, assessed or imposed upon or on account of the execution of the contract or on the materials therefor, or on the manufacture, storage, sale, receipts from sale, transportation or delivery of the materials therefor, under any Federal, State, or local law or laws, and in the event said taxes, license fees, assessments and excises, or any part thereof, are in the first instance charged to the Owner, the Contractor shall, at the demand of the Owner, pay the Owner the amount thereof, plus any and all penalties which may have accrued thereon.

The Owner is exempted by Section 3-5 of the Illinois Use Tax Act (35 ILCS 105/3-5 (2000)) from paying any of the taxes imposed by that Act, and sales to Owner are exempt by Section 2-5 of the Illinois Retailer's Occupation Tax Act. (35 ILCS 120/2-5 (2000)) from any of the taxes imposed by that Act.
