Post-Bid (External)

Submittal of Good Faith Documentation for (i) a Change in MBE/WBE Goal, or (ii) Waiver of Goal Request (External)

1. All bidders shall submit, within ten (10) calendar days after Owner notifies bidder of the deficiency that goals are not met, an updated Attachment B and updated documentation of good faith which are necessary to evaluate good faith efforts when a change in MBE/WBE goals or a waiver request is submitted. The minimum expected documentation includes, but is not limited to:

   a. Any and all information indicating why the bidder believes the specified goal cannot be met.

   b. A list of all MBE/WBE firms contacted and the dates and method by which they were contacted, including documentation from those firms.

   c. Copies of all bid solicitation letters to MBE/WBE firms. Letters shall contain, at a minimum:

      i. Project Title and Location

      ii. Classification of Work Items for Which Quotations are Requested

      iii. Date, Time, and Place Quotations are Due

      iv. Returnable Acknowledgment of the Solicitation

   d. Evidence, such as a log, of telephone, e-mail, fax, etc. contact including time and date of contact, telephone number or email address, and name of the person contacted, and a description of the result. Bidders must keep and submit copies of all emails sent and received from prospective BEP vendors and include a copy of the commodity list or scope of work solicited from prospective BEP vendors to perform.

   e. All other evidence of good faith efforts made by the bidder to secure eligible MBE/WBE firms to meet the specified goal. Evidence may include documentation, at a minimum, that states the following:

      i. Contacting the Business Enterprise Bureau at least 15 days prior to need and requesting referrals from the vendors list and from any other list maintained by the Bureau;

      ii. Advertising in the Official State Newspaper or a local newspaper as time permits;

      iii. Contacting appropriate organizations such as unions, contractor associations, and MBE and WBE oriented organizations.

      iv. Utilize the Sell2Illinois website: www2.illinois.gov/cms/business to identify BEP certified vendors within the respective commodity/service codes and at a minimum email all listed vendors and solicit quotes from all vendors who express an interest via follow-up emails or telephone calls.

      v. Solicit with the intent to award contracts through all reasonable and available means (e.g., attendance at a vendor conference, advertising and/or written notices) the interest of BEP certified vendors that have the capability to perform the work of the contract. Bidder must solicit this interest within sufficient time to allow the BEP certified vendors to respond to the solicitation. Bidder must determine with certainty if the BEP certified
vendors are interested by taking appropriate steps to follow up initial solicitations and encourage them to submit a bid or proposal. Bidder must provide interested BEP certified vendors with adequate information about the plans, specifications, and requirements of the contract in a timely manner to assist them in responding promptly to the solicitation.

vi. Select portions of the work to be performed by BEP certified vendors in order to increase the likelihood that the goal will be achieved. This includes, where appropriate, breaking out contract work items into economically feasible units to facilitate BEP certified vendor participation, even when Bidder might otherwise prefer to perform these work items with its own forces.

vii. Make a portion of the work available to BEP certified vendors and selecting those portions of the work or material needs consistent with their availability, so as to facilitate BEP certified vendor participation.

viii. Negotiate in good faith with interested BEP certified vendors. Evidence of such negotiation must include the names, addresses, email addresses, and telephone numbers of BEP certified vendors that were considered; a description of the information provided regarding the plans and specifications for the work selected for subcontracting and evidence as to why additional agreements could not be reached for BEP certified vendors to perform the work. A Bidder using good business judgment may consider a number of factors in negotiating with BEP certified vendors and may take a firm’s price and capabilities into consideration. The fact that there may be some additional costs involved in finding and using BEP certified vendors may not be in itself sufficient reason for a Bidder’s failure to meet the goal. The potential savings gained or the desire of a prime contractor to perform the work of a contract with its own organization or forces does not relieve the bidder of the responsibility to utilize BEP certified vendors or make good faith efforts to negotiate price and potential work with BEP certified vendors.

ix. Thoroughly investigate the capabilities of BEP certified vendors and not reject them as unqualified without documented reasons. The BEP certified vendor’s memberships in specific groups, organizations, or associations and political or social affiliations are not legitimate causes for the rejection or non-solicitation of bids and proposals in bidder’s efforts to meet the goal.

x. Make efforts to assist interested BEP certified vendors in obtaining lines of credit or insurance as required by the Owner.

xi. Make efforts to assist interested BEP certified vendors in obtaining necessary equipment, supplies, materials, or related assistance or services.

xii. Utilized resources available to identify available certified vendors, including but not limited to Office of Procurement Diversity staff, BEP assistance staff; local, state and federal minority or women business assistance offices; and other organizations that provide assistance in the recruitment and placement of diverse businesses.

f. The University of Illinois will consider all other evidence of good faith efforts made by the bidder to secure eligible MBE/WBE firms to meet the specified goal, prior to the bid due date and during the 10-day cure period if applicable.

g. The University of Illinois will take into account the performance of other bidders in satisfying the contracts specified MBE/WBE participation. For example, when the apparent successful bidder fails to commit to the contract goal, but other bidders commit to the goal, the
University of Illinois will raise the question of whether, with additional efforts, the apparent successful bidder could have committed to the goal.

h. An updated Attachment B

i. Other relevant information in support of the change/waiver request.
