

UpsideContract - Edge in IE Compatibility mode instructions

Upside Contract Production URL: <https://upside.apps.uillinois.edu/UpsideContract6/login.aspx>

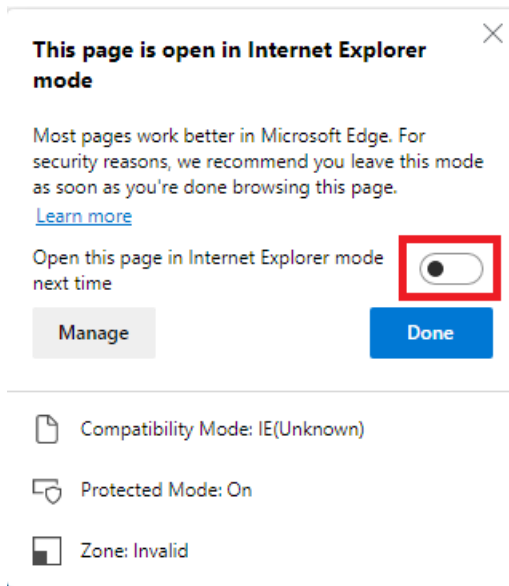

1. Right click the tab containing Upside Contract:

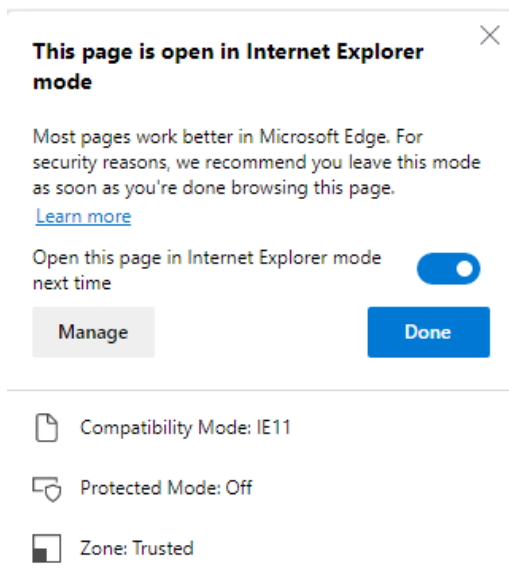

2. Click on the 'Reload tab in Internet Explorer Mode' menu item:

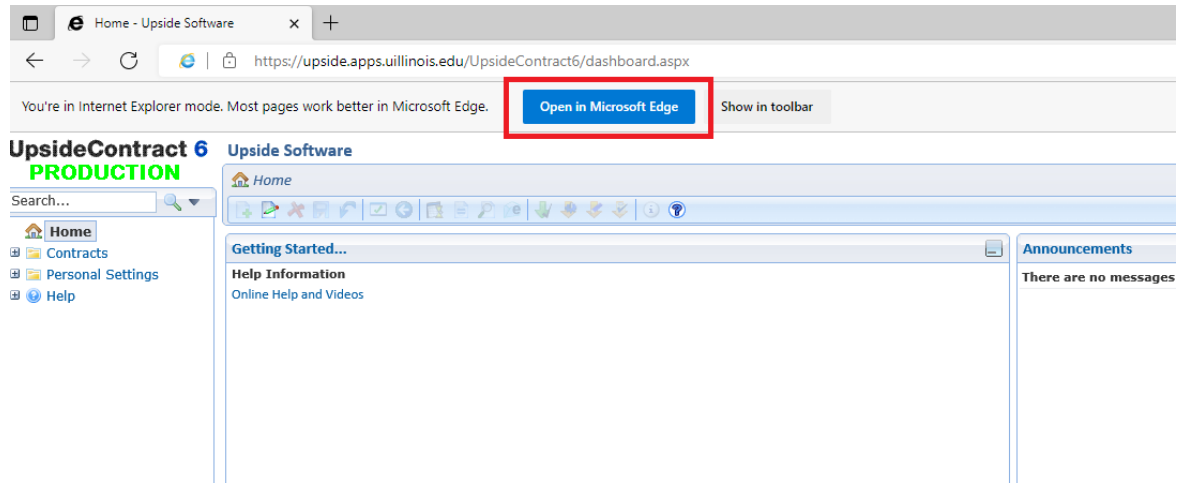

- This settings menu will appear. This the slider so that it turns blue.

- Then click the blue 'Done' button.

5. You are now in IE compatibility mode which is indicated by the blue button that says 'Open in Microsoft Edge'. Do not click that button or it will undo the settings and put Edge back in normal mode.

6. The IE compatibility mode setting is only good for 30 days. Once 30 days pass by then you will have to go through this process again.
